

**STOP MOTION ANIMATION**

# What is animation?

**Animation** is a process where pictures and images are arranged in sequential order to create the illusion of movement in a scene.

# Types of animation

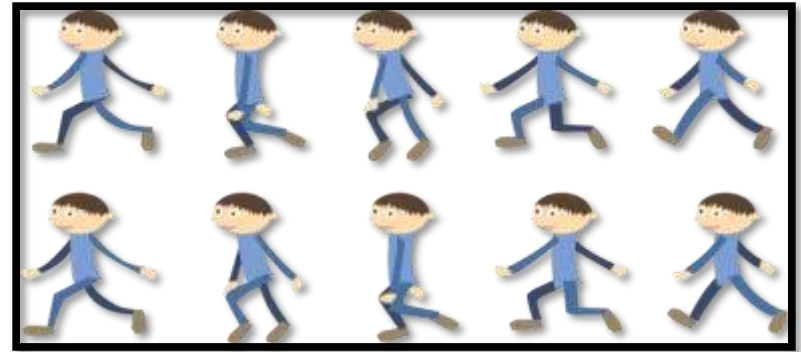

Traditional Animation

2D Animation

3D Animation

Stop Motion Animation

# STOP MOTION ANIMATION

Stop motion animation is a technique to bring static objects to life on screen. This is done by moving the object inch by inch and photographing each frame(movement). When all the frames are played in sequence it shows movement as animation.
