- FAQ
- Help more students find thatquiz.org. [Link to us from your school or personal website.](#)

Quick Start

- If you haven't already, create a class with at least one student by clicking on [New Class](#).
- Create a test by choosing a category (Integers, Fractions, Concepts, Geometry) a test (Arithmetic, Inequality, etc.) and clicking Assign Test.
- Give the Test Code (appears in the first column of [See Tests](#), before the test name) to the students, and have them enter it under Class Testing on our [homepage](#). You can also notify your students of the test by email by clicking on the Notify button.
- After students have tested, click on [Grades](#) to check their work.

ThatQuiz is a free testing service for teachers to use with their classes. Multiple choice tests and math tests can be administered to students using this website. All grades are immediately reported to the students. Teachers receive complete record keeping of test results, including all grades and wrong answers. For questions or support send mail to admin@thatquiz.org but search the [blog](#) and read the [Frequently Asked Questions](#) first.

An aerial photograph of a golf course. The foreground is dominated by numerous cycas plants, which are fan palms with dark green, feathery fronds. They are arranged in a somewhat regular pattern across a grassy area. In the background, a white path or road curves through the landscape. To the right, a green golf course fairway is visible, bordered by a line of colorful flowers. A few people can be seen walking on the path in the upper left corner. The overall scene is bright and sunny, with clear shadows cast by the plants.

Thank you for the
patience listening
