जय राजगुरु (Jai Rajguru)

Jai Rajguru was an Indian freedom fighter, who is the first State Martyr of Odisha. His original name was Jaykrushna Rajguru Mahapatra. He was born on October 29, 1739, near Puri in Orissa to his father Shri Chandra Rajguru and mother Smt. Haramani Debi. He came to be known as Jai. Rajguru after he was appointed `Rajguru` to the king. Later he fought for his motherland against the British. Rajguru not only proved to be a great royal priest but also an accomplished Commander-in-Chief and a freedom fighter. He was the first martyr in the national freedom struggle from Orissa.

The Mumbai Musicians

“The Mumbai Musicians” is a prose from Class II, NCERT MARIGOLD TEXTBOOK. This lesson is about a donkey named Goopu. He had worked for many years in the house of a farmer. He had carried many heavy sacks of corn and sugarcane, from the farm to the factory. He was now very tired and old. So the farmer told him to take a sack of corn and go and see the world before you become too old. So Goopu wanted to go to Mumbai to become a Musician. On the way, Goopu met Doopu, the dog, Furry, the cat and Cuckoo, the cock. They also wanted to become Musicians. Thus they all went to Mumbai, where they started singing. The people thought that ghosts had come to scare them. They all ran from there.

Pebet Mamagi Lousing

The story is based on a folktale about the wisdom of mother Pebet in saving her offspring from the mouth of a malicious cat who pretends to be a monk. Here, the grandfather narrates the story to Bemma about how the mother Pebet always praises the cat with beautiful words to save her offspring. But later when the little ones can fly, the mother Pebet throws words of insults and the cat no more disguises himself. He attacks the Pebet family and caught the weak one. Meantime the mother Pebet suggests washing and sun drying it on a banana leaf to make it tastier. In the end, the little bird becomes active and flew away leaving her excreta. Her wisdom left the cat dejected.

Books and Stationery, Kitchen Articles

Books and Stationery – Children are curious, and that is how they learn, which means the options and variety of stationery items are one of the ways to retain their interest in learning new ideas, concepts and skills of writing and drawing. The importance of stationery items remains useful for everyone. It always makes us think of their utility in our daily lives. It has a very interesting and diverse effect as it is used by vegetable vendors, teachers, lawyers, poets, artists, etc. Kitchen Articles – the kitchen is a room or part of a room that is used for cooking and food preparation in a house or a commercial establishment. The main purpose of a kitchen is to serve as a location for storing, cooking and preparing food, and also can be used for dining.

Vegetables

Vegetables are an important part of our diet. They provide essential nutrients that keep us healthy and strong. Vegetables are low in calories and high in fibre, which makes them the perfect food for weight loss. They also contain antioxidants, vitamins, and minerals that protect us from disease. Most vegetables are easy to prepare and can be eaten raw, cooked, or juiced. Vegetables can be added to soups, stews, salads, and stir-fries, or they can be enjoyed as a healthy snack.

CVC/CVCE Words

CVC words are consonant-vowel-consonants. Examples: cat, box, rod, wig. The vowel sound is always short. CVCE words are consonant-vowel-consonant-silent e. Examples: rake, tube, like, poke. The «e» at the end of the word usually makes the vowel «says its name,» meaning it becomes a long vowel. Because the «e» isn't pronounced though, it's often called a silent, sneaky, or magic «e.» These are words like bake.

Eat Healthy to Stay Healthy

The story titled 'Eat Healthy to Stay Healthy' encourages small children to make healthy food choices and 'Eat Right'. Renu, a small girl, is playing in the park when she meets members of the Healthy Food Family comprising milk, apple, carrot, tomato, cauliflower, egg and lemon juice who share their health benefits. Thereafter Renu meets members of the Junk Food Family comprising Maggi noodles, burgers, pizza, wafers, cake and Pepsi who share their advantages. The story gives out a message to children that if they wish to have junk food and soft drinks, they should have them in less quantity and once in a while. They should eat healthy food which will provide nutrients to their body and keep them healthy.

The Mumbai Musicians

"THE MUMBAI MUSICIANS" is an interesting story from Class 2, NCERT textbook, Marigold. This story is about some animals who want to go to Mumbai and be musicians there. A donkey named Goopu, a dog named Doopu, a cat named Furry and a cock named Cuckoo went to Mumbai. On the way, they saw a house. They decided to sing to let the people inside know that they were musicians. They sang. The people inside thought that ghosts had come to scare them. They ran away as fast as they could! This story develops reading skills, introducing describing words, and sounds to listen to and repeat. A wonderful story to enjoy and know about animal names and some musical instruments.

చిట్టిపూల పరిమళం (Fragrance of Little Flowers)

Childhood is the medium of social integration of the individual and is the first step towards personality building. Most of my childhood is spent at school and at home. When childhood is spent in a responsible environment, excellent personality formation takes place. Bharath, a 9th-class student grew up in such an environment towards society with things taught by his grandfather. Apart from himself, he also developed social responsibility among the people around him. This is the story of Bharath who exhibits what social responsibility is all about. It is a story of a grandfather who provides such Bharaths to society.

ଭକ୍ତ କବି ବଳରାମ ଦାସ | (Bhakta Kabi Balaram Das)

Balarama Das is famous as the poet of Jagamohan Ramayana also known as Dandi Ramayana, the first and greatest complete Ramayana in Odia literature. This Ramayana, because of its immense popularity in Odisha, influenced almost all the later poets of Rama-kavya. There is a beautiful river in the Puri district named Kushabhadra. Balaram Das was born in the Puri district at Erabanga near Nimapada. His father served in the king's council. Although he is said to be a Karana by caste, the Panchasakha never revealed their castes.

బెస్ట్ ప్రాక్టీసెస్ at KGBV గుంటూరు, ఆంధ్రప్రదేశ్

(Best Practices at KGBV Guntur in Andhra Pradesh)

This project is about the importance of Vocational Education. It's a short play performed by KGBV students. The characters in this play are Vocational Education Teacher, two trained students, a Cutting master and a Special officer. The students who attended the training programme share their experiences and try to motivate other students to join in vocational courses. The Vocational Education Teacher tells her experience by saying that one who does vocational education can settle in their life early. According to the National Education Policy 2020, by 2025, at least 50% of learners through the school and higher education system shall have exposure to vocational education in all schools so that students can settle independently and lead life happily.

Divyang – A Unique Gift with Exceptional Ability

In our lives, childhood memories are everlasting memories. They become the happiest memories in everyone's life. Thereafter the school is the first and foremost platform outside the home to build the socialising forms of a child. Children with anxiety and mental tension cannot enjoy schooling while learning disabilities overpower them. There are several government and social organisations to take care of children with disabilities. There are several standing examples of people with physical and mental disabilities in their early lives who still emerged as the most successful individuals.

Lotus

It is about the significance of “Lotus” – the National flower of our country, India. A boy called ‘Mani’ takes along his sister, Yaibi, and Sana to a lake with lotus. His sister collects their choices of lotus. They acknowledge a red lotus with 108 petals, a tiny lotus in the colour of red and white. They witness how the lotus opens and closes. Mani let his sisters collect thamchet (lotus seed). They talk about thambou (lotus root), and the benefit of lotus. They make medicine from lotus. Thoiba narrates the summary of lotus. Eventually, they got to know why the God and the Goddess sit on the lotus, hold it, and also the relationship between human life and the lotus.

साइबर सिक्योरिटी लो पहचान (Be Familiar with Cyber Security)

“साइबर सिक्योरिटी लो पहचान” is a poem written to raise awareness among our youth about the dangers of the internet. The poem uses singing as a teaching method to educate young people about the threats of hacking, fake ID problems, banking fraud, identity theft, email hacking, and cyberbullying. This project aims to educate our young netizens about the invisible dangers of the cyber world.

Good Touch Bad Touch

The audio file is a conversation between two girls where one of the girls asks the other about good touch and bad touch. She explains her in the easiest way giving an example of a Butterfly which flies when touched. She further explains by giving an example of swimsuits that the parts that are covered are the private parts. No one is allowed to touch or see these parts. People like mother, and sister who loves come into a safe circle and are allowed. People like close relatives and friends are out of the safe circle and not allowed. When someone touches us and we feel uncomfortable then that person should be stopped by saying no and parents need to be informed about it.

Positive Affirmations for Children

In this audio e-content, I have chosen simple short sentences that can be easily followed by children of all ages related to their daily life. These 36 statements include self-love, self-esteem, gratitude, mental health, motivation, integrity, cleanliness, healing and success. It is good to hear in the morning time but also can be heard at any time whenever the child requires it. We can teach our children to use affirmations as a powerful tool for their well-being and focus on their goals. Affirmations have the power to change negative thinking patterns and replace them with positive thoughts. Our thoughts become actions which become a habit, later.

Jananayak Birsa Munda

Birsa Munda, who was born in a tribal society and declared Ulugulan i. e. all-out uprising against the British government for the justice rights of tribals, is written in golden letters in Indian history. First, tribals have the right to water, forest, land and water. Birsa Munda took up arms to shout this to the world. and set fire to the British. Empowered our tribal brothers and gave weapons in their hands. The British were left in a frenzy. But Fandfiturne Birsa Munda fell into the hands of the British. It was the British who put an end to the Biras. Dharti Aba, Lord Birsa Munda is immortal.

Follow Your Passion

The story titled 'Follow Your Passion' revolves around a girl named Raveena who is studying in grade 11. Raveena wishes to opt for the Humanities Stream as she is very passionate about becoming a Photographer. Her mother on the other hand wants her to become an engineer as she has harboured that wish from Raveena's childhood. Seeing Raveena in a terrible predicament, her teacher reaches out to her and later counsels her mother. The story gives a message to students to follow their passion and not bow down to parental or societal pressure. They must reach out to their teachers, school counsellor and parents whenever they are in a dilemma about any decision related to their career path.

Find out, if you can

The audio story is suitable for inclusive education. The story is about a fish Riya and a bird Ralli. Since Riya couldn't come out of the water, Ralli explains the outer world to her friend Riya. The interesting story has riddles for the children, listening to the audio. So, the children listen to it carefully and become active listeners which develop listening skill among primary school students. Also, it gives ideas to the children on how to behave with blind people or differently abled students when they are in need. The story helps DIVYANG children to be friendly with other students without hesitation. It develops positive changes in CWSN and other children in the classroom.

The Ship of the Desert

This lesson is in the form of a dialogue between the lion, the king of the forest and the camel, the ship of the desert. The lion simply cannot understand how an animal can be a ship. The camel tells him that he is the ship of the desert because he can walk across the burning sand very comfortably. Not only that he can run on sand at 25 kilometres an hour. The camel shows his padded feet to the lion. He further tells the lion that he can drink 200 bottles of water at a time and so can live without it (water) for a week. He eats a lot of food at one time, stores it in its hump and does not need to eat for a fortnight. The lion gets surprised to know all about the camel. He accepts that he can't walk on burning sand, can't store food and water and can't eat thorns. He wishes good luck to the camel, the ship of the desert.

రంగుల కల" (Colourful Dream)

This programme is based on a teacher telling the story of a colourful Dream dramatically. The students express their readiness. The story goes like this long ago. All the birds were white. They ask their King to help them get colourful bodies, like animals. The king gets different colours from Heaven. He makes the crow announce the programme of making birds colourful. The teacher must discuss things with students and improve their creativity. Opportunities should be provided in curricular, non-curricular activities so that students build their future with colourful ideas.

पढ़-लिख लिख-पढ़ (Padh-Likh Likh-Padh)

National Literacy Mission is a countrywide expedition launched by the Government of India to ascertain that every illiterate adult must be fostered and exposed to a minimal level of literacy and numeracy. The prime objective of this adult literacy program is to make the adults able to read, write and have basic numerical understanding. The program “Padh-Likh Likh-Padh” is a musical advocacy to encourage the adult masses to become foundational literate. The program also highlights some of the benefits of being literate. Educational skills are not confined only to “copy-book” tools anymore. Now new tools are also being used. Like a Mobile phone. Internet services. To develop educational skills in illiterate adults it is also necessary to inculcate in them some basic awareness of “search -security” while using the internet. The format is musical so that the message is easily grasped singing and humming.

लाल बूँद (Laal Boond)

The programme is targeted at adults to create sensitivity in society and break the stereotypic thinking that females are impure during periods. They should not be separated from others during their menstrual cycle. The story weaves around a newlywed girl, who is made to stay in a separate room and made to fast for three days. She is considered impure and told to be isolated. Her educated husband breaks the stereotypical thing of the family and she is then treated as equal to all others during her menstrual cycle. A princess is in the habit of wasting paper every day. The problem arises when the tree is almost finished in the kingdom.

గురు దక్షిణ (Guru Dakshina)

The programme begins with a teacher's soliloquy. He thinks about how his students prepare hard for competitive exams. Then he meets a young girl and talks to her. The girl tells him she wants to become a teacher at a govt. school. He tells her to complete her education. Then another youth says he also wants to become a teacher. A third young girl joins them. The teacher advises them to concentrate on their studies. The youth tell him how he inspired them. The scene shifts to Madhavi's house. Madhavi's mother is surprised at seeing charts on the walls. She reads the charts and appreciates them. The first young girl joins Madhavi and her mother. She tells them about the teacher training programmes for HMs also. Madhavi's mother feels happy about how they will become good teachers in the future.

शिक्षक जो गढ़े बचपन को (Shikshak Jo Gadhein Bachpan Ko)

National Education Policy 2020 strongly recommends the holistic development of teachers. The policy also suggests making them capable of imparting life skills and humane values in the hearts of the children. The scripting and production methodology of this program is different from the traditional teacher training programs. Instead, this program picks up a case study based on the life of the great inventor and scientist Thomas Alva Edison and attempts to find out the attributes of a good teacher from within the program. The program highlights the values of the virtue of hard work and continued endurance with contextualized effective media treatment.

Learning through Play

A teacher education program can be completed with an understanding of play as an important component and its association with Piaget, Parten, and Vygotsky. Play is a vital component of the development of children. Children learn a lot of things through play. All family members need to spend quality time with their children. By playing small games with the family children can form strong bonds, share whatever is going on in their life and develop in all aspects. Emotional, physical, social, and language development is enhanced and children can connect with their parents without hesitation.

Nazism and the Rise of Hitler, Climate

The 'Nazism and The Rise of Hitler' chapter is from the class 9 History CBSE curriculum. This presentation was prepared for the students to have a better understanding of who was Hitler and how he became the Adolf Hitler who was not supposed to be the one that the entire world knows. From a simple small-town boy to a dictator the journey was a roller coaster ride. So this e-content helps students to see the sketch of his life in brief. Whereas the other chapter i.e. Climate is a chapter from Geography that talks about different climates, seasons, monsoons etc.

Cyber Birds

The purpose of this educational gaming app is to teach students, aged 5 and above, about the significance of cyber safety. The app uses a well-known game like Angry Birds to grab the attention and interest of young students, making the learning experience more enjoyable and effective. The objective of the app is to raise awareness among young digital natives about the potential risks of the internet and how to safeguard their personal information. This education can help students comprehend the need for caution when sharing information online, and how to recognize and report any suspicious activity. By incorporating cyber safety education into an interactive game, the app makes the topic more approachable and appealing to young students, preparing them for a secure online experience. The app has two levels, and users must progress through each level to complete the game.

Learning App for FLN

NEP 2020 aims in developing Foundational Literacy and Numeracy among primary children in the Early stage itself. So to develop FLN for my students I have developed this «Learning App for FLN» using the open-source platform «MIT App Inventor». This app helps learners to learn Tamil, English, Maths and Hindi. In this app, students learn their regional language Tamil and our National language Hindi and Maths too. This app is very child friendly and easily helps young children to develop their Literacy and Numeracy at the Foundation level itself.

Maths Challenge Game App

This game is created for mathematics skill development. We created this game in MIT App Inventor which is a simple block-based free tool and it is easy to learn as well. In this game, many users can play on their mobiles and whoever scores a high score, his/her name will display on the leader board as appreciation. This function is working on Tiny DB (Database) functionality. All the users’ scores are stored in a web base database and it will sort out the high scorer in the leaderboard. It will create healthy competition among the students to get a high score and will learn mathematics very easily. So, directly this app will help learners to work on foundational numeracy skills.

A Thing of Beauty

Objects can hold a special kind of power – the power to evoke fond memories. Certain items can transport us back to a simpler time when life was full of innocence and joy. For some, it might be a specific item with a personal significance or a particular item that is associated with a meaningful moment in time. Whatever it is, the item can bring back treasured memories. The poem ‘A Thing of beauty’ highlights that anything that brings joy is beautiful and everlasting. It does not change as the seasons change, or as humans evolve. It will invoke joy in the hearts of all who behold it.

Learning Maths

This project is done using a block-based coding platform called Pictoblox. I have made this because many children face difficulty in Mathematics. They find it very boring. To have an interest in math subject I thought of making it fun using animations. Here is an application that makes calculations easy and fun. The most fun thing is to drag the numbers around and, in the slots, add, subtract, multiply or divide. Sometimes throw the numbers away, or sometimes clone the numbers required. After you click on 'answer', it will answer as if it is being animated. This is fun.

Save the Forest from Fire

This game is developed using a scratch program. It is designed to raise awareness among School children and Adults about saving forests from fire. This game is made under the guidance of planetcode.in. The purpose of this game is to create awareness among school children and adults about environmental protection. For creating awareness about protecting the forest from fire, nowadays considering the interest of students and adults digital games are useful and effective. Through this digital game awareness can be cultivated among all the students and adults in India and also worldwide.

Wind Mill Power Generation Simulation

Windmills are a clean and renewable source of electricity. In this simulation, students can explore the factors that affect the efficiency of windmills in generating electricity. The game offers three main parameters: Wind speed, Windmill blade length, and Efficiency of the windmill by adjusting these parameters students can observe the effects on the windmill's performance. There is also an option to show all the calculations according to the chosen parameters.

Value of Pi Simulation

“Value of Pi Simulation” math-based game that is designed to help students understand the concept of pi. This simulation challenges students to find the value of pi by inputting the radius of circles. The objective of the simulation is to simulate drawing a circle according to the input radius, calculate the diameter and the circumference of the circles and divide it by the diameter, to arrive at the value of pi as accurately as possible. Students can test their math skills and improve their understanding of pi and its relationship to circles in this fun and interactive simulation.

देवल चौरी की धनुष लीला (Devalchauri ki Dhanush Leela)

भारत में लीला नाटकों की परम्परा प्राचीन और विराट स्वरूप में मौजूद रही है। प्रमुख रूप से उत्तर भारत में लीला के दो रूप कृष्ण लीला और रामलीला अत्यंत लोक प्रिय रहे हैं। अपने आराध्य की भक्ति के साथ-साथ लीला नाटक सांस्कृतिक और नीतिपरक मूल्यों की स्थापना में भी अपनी भूमिका का निर्वहन करते रहे हैं।

Increase your CQ (Consumer Awareness Quotient)

We are all consumers, but a large portion of our population is still unaware of their rights, responsibilities, and where to report cases of producer or seller malpractice. To protect consumers, the government of India has launched a national campaign called "Jago Grahak Jago (Wake Up Consumer)" to raise consumer awareness but much more is needed.

Sign Language Interpreting Services for Classroom Transaction: A prototype

Sign language is a visual-manual form of communication that has similar grammatical features as any spoken language. It is no longer a matter of contention whether sign language is a real language or not. In the last 40 years, the field of sign linguistics has shown that sign language is a natural language that fulfils the same functions and has the same standards as any spoken language.

Digital Database of Indian Sign Language & Educational Resources

Online access to sign languages is available around the world and a few in India are mostly dedicated to fulfilling daily communicative needs. This DDISLER (glossary of signs) provides online access to sign languages in the context of school education. It is an online educational resource that contains information regarding the types of sign languages used by the deaf community. This Web App has been developed through an open-source PHP (Hypertext PreProcessor), a scripted language that is embedded in HTML which aims at supporting the education of d/Deaf people across the region. The application can be hosted on the NERIE-NCERT website to cater to educational institutions in the NE region.

Breathing Exercise (श्वास संबंधी अभ्यास)

अभिनेता के पास अभिनय करने के दो प्रमुख साधन हैं, आवाज़ और शारीरिक चेष्टाएं। आवाज़ का सुस्पष्ट होना तथा सुर में होना अभिनेता के लिये अत्यंत जरूरी है। आवाज़ यानि वाणी के अनेक अभ्यासों का विवरण भरत मुनि के नाट्य शास्त्र में भी मिलता है। इस कार्यक्रम में आवाज़ को उत्कृष्ट बनाने के लिये संगीत के विभिन्न अभ्यासों का उल्लेख किया गया है। किस तरह स्वर अभ्यास अलंकार और स्वरों के आरोह अवरोह द्वारा वाणी को अभिनय के लिये उपयुक्त बनाया जा सकता है। इस बात की चर्चा यहाँ प्रख्यात निर्देशक आलोक चटर्जी कर रहे हैं।

Digi App - Sangli

For reaching all parents and children, we can continue our education during this period as well. For this purpose, the "Schools closed but education Continues" (शाळाबंद पण शिक्षण चालू) initiative was effectively started in Sangli district. Teachers, parents and students should use different websites, portals, platforms and educational applications. Students and parents need to be constantly aware of cyber security while using technology.
