ICT & Digital Initiatives- Samagra Shiksha, Assam

ICT and Smart School (Elementary)

- ICT project is running in 648 Elementary Schools
- During the year 2021-22, another 1319 elementary schools will be covered under ICT.
- Smart Class room will be set up in 1115 Elementary schools during 2021-22

Artificial Intelligence based Attendance Monitoring of Teachers and Students and SDMIS:

- It is a 'Mobile App' for Real-time Identification of attendance of Teachers and Students based on Artificial intelligence based Facial recognition. Teachers have to install the App in their own Mobile Phone and register themselves and students with proof of identity. No additional hardware is required.
- The App capture the face impression which is converted into binary forms and compares every day while taking the facial impression to find the attendance. The attendance is then compared with Geo-locations to check whether the teacher or students within the Geo-fencing of school premises.
- The system will keeps the individual records to Teacher's Service details as well as Students individual records including mapping of e-learning mode availability, Learning Outcome achievement and Migration.
- Already 1,57,304 Teachers have enrolled and Teachers have started giving facial recognition based attendance from the school.

Personalized Adaptive Learning (PAL):

- PAL-a new intervention with judicious mix of structured Teaching-Learning sessions in the classroom followed by personalized adaptive practice by students in lab and planned remediation through use of technology (adaptive learning platform). Since the learning ability of each student is different, the remediation would vary and has to be very personalised.
- PAL is implemented in 200 schools on pilot basis having ICT lab facility.
- In case of schools wherein 40-50 students in a classroom with heterogeneous learning ability, giving personalised attention is humanly not practical even for a good teacher. With the help of PAL solutions this can be addressed in a systemic way which will not only facilitate in understanding the learning gaps but also addressing the personalised remediation using the solution.

Personalized Adaptive Learning (PAL):

- PAL creates a personalized learning path for each child by considering his/her interests, aptitude, concept comprehension, topic and sub-topic performance and curricular progress.
- Every student has to register in PAL platform and they can practice activities with the help of Video contents followed by assessment according to the Learning Outcome. Induction Training of 2149 teachers completed held on 20th & 21st September, 2021. Out of total 89,490 students of 200 schools, a total of 50,009 students have registered in PAL platform. An on-line baseline assessment attended by 18,809 students

On-Line Teacher Transfer & Posting Management System:

- As per ‘The Assam Elementary and Secondary School Teachers’ (Regulation of Posting and Transfer), Act, 2020 vide Notification No. No. LGL.48/2020/3.- dated 15th May, 2020, State Government to manage posting and transfer of teachers of Elementary and Secondary Schools according to the requirement of teachers in a School in order to maintain proper Pupil Teacher Ratio (PTR) norms prescribed in the Right of Children to Free and Compulsory Education Act, 2009 and State RTE Rules, 2011. Accordingly Office Memorandum was issued vide No.ASE101/2020/38 dated 23rd June, 2021. As per the Act, there are three types of transfer to be executed as mentioned below.
 - Inter School transfer (Within the Districts)
 - Inter District transfer
 - Mutual transfer
- The Registration process for all teachers started from 22nd November, 2021 and till 5th December, 2021, more than 85000 Teachers have registered.

Other ICT initiatives

- State has collaborated with Jio Channel for providing academic support to students through Jio TV, Jio Savan and Jio Chat.
- “Biswa Vidya” -YouTube channel and App were developed and uploaded subject specific videos.
- About 25 thousand class wise WhatsApp groups are opened. These are being used by teachers for providing academic support to the students.

Thank you
