List shows all the information on the cards, with questions on the front and answers on the back, for example.

Practice shows the question with a text box for entering the answer. Type correctly, hit enter, and get a green check.

Matching shows all the options in boxes so you can select two to match the question and the answer, and they will glow green and vanish.

More allows for other ways to use the information including bingo, crossword, manipulatives, matching game, and quiz show.
