# Creating Interactive Presentations Using Zeetings

-Ms. Anjali Khurana
ICT Consultant, CIET-NCERT

About Zeetings-
- **A free, cloud-hosted software that gives the presenters the power to engage and collaborate with their audiences.**
- **It has a remarkable shift in the communication paradigm from one way into powerful interactive and dynamic two way communications.**
- **It does not require any downloads or software configurations. Members are empowered to join the conversation from any device via one customizable URL.**

About Zeetings-

- Presenters can maintain strict control over who has access to the content and make sure everyone has the most up-to-date version.
- The feedback of the users can be posted anonymously.
- It tracks conversations, polls results and data-driven results.
- A valuable resource to have an effective communication even in a virtual mode.

Different option provided to add content in slides-
