What is a Blog?

- A blog is a web application which allows users to post information (or articles) of any kind on the internet and allow people to provide feedback.
 - A blog combines text, images, and links to other blogs, web pages, and other media related to its topic.
 - Maintaining a blog is called blogging
 - A person who posts entries is called a blogger
-
- But Blogging is more than this...

What type of blog do you like to built?

PRIVATE PUBLIC COMMUNITY SURVEY PROFESSIONAL PROMOTIONAL

Types of Blogs...

A diagram with a double-line black border. At the top, six words are listed: PRIVATE, PUBLIC, COMMUNITY, SURVEY, PROFESSIONAL, and PROMOTIONAL. Below each word is a thin black arrow pointing downwards and slightly inwards towards a central point. At the bottom center, the text 'Types of Blogs...' is written.

How to start a Blog?

- ▶ Building your own from scratch – gives you more control over the content of the blog page, but takes more time and effort!
- ▶ Using a pre-existing blog website such as www.blogger.com – there may be downsides concerning possible advertisements, but it is much easier to manage and less hassle.

Today's session Focus On!!!

This session will focus on the basics of setting up a blog using the free blog host www.blogger.com using your own gmail-id.

It will also go over some of the main editing options that will help to customize your blog.

What will you need?

- Basic digital requirements:
Laptop/Computer, Internet Connection
- Basic Knowledge of Computer
- Email-Id

Search 'Blogger' on Google Search Engine

The image shows a screenshot of a web browser window with the Google search engine. The browser's address bar shows 'google.com'. The Google logo is prominently displayed in the center. A search bar is active, containing the text 'blogger'. A green arrow points from the left towards the search bar. Below the search bar, a dropdown menu displays search suggestions:

- Q blogger
- Q blogger meaning
- Q blogger templates
- Q blogger meaning in punjabi
- Q blogger blogs
- Q blogger means in hindi
- Q blogger themes
- Q blogger app
- Q blogger login
- Q blogger create

The browser interface includes navigation buttons (back, forward, refresh), a search icon, and a star icon. The top right corner shows 'Gmail Images' and a user profile icon. The bottom of the browser window shows 'India' as the location, 'Advertising Business About How Search works' as navigation links, and 'Google Search' and 'I'm Feeling Lucky' as search buttons. The Windows taskbar is visible at the bottom, showing icons for 'unnamed.jpg', 'blogging_platform...jpg', and 'Types-of-blog-tag...png'. The system tray in the bottom right corner shows the time as 8:57 PM on 6/3/2020.

Click on Blogger.com website

The screenshot shows a web browser window with three tabs: 'Cyberoam', 'WEBSITE OF BLOG - Google Search', and 'blogger - Google Search'. The address bar shows a Google search URL for 'blogger'. The search results page displays the Blogger website as the top result, with a green arrow pointing to the search bar. The search results include a link to 'Blogger.com - Create a unique and beautiful blog. It's easy ...', a description of the service, and several related links like 'Sign in', 'Manage Blogs I Follow - Blogger', 'Dit Profile', and 'Blog Login'. On the right side, there is a knowledge panel for 'Blogger' with its logo, a description, and key facts such as 'Date launched: 23 August 1999' and 'Registration: Optional, Free'. The Windows taskbar at the bottom shows various application icons and the system tray with the date and time '8:58 PM 6/3/2020'.

8:58 PM 6/3/2020

Step 1: Signing Up for Blogger

- ▶ Go to the website www.blogger.com
- ▶ Click the orange Button that says, "Create Your Blog"

If you already have an blog account then click on Sign In, otherwise you can sign up with your existing gmail account

The screenshot shows a web browser window with the address bar displaying `accounts.google.com/AccountChooser/signinchooser?hl=en&service=blogger<mpl=blogger&continue=https%3A%2F%2Fwww.blogger...`. The main content area is titled "Choose an account" and lists several accounts, each with a profile picture, name, email address, and "Signed out" status. A large green arrow points to the list of accounts.

Name	Email Address	Status
Lovkesh Vermani	lsvermani@gmail.com	Signed out
MyFirst Knowledge	myfirstknowledge2016@gmail.com	Signed out
Lovkesh Vermani	lsvermani@ppsnabha.org	Signed out
Moutif Hardware	moutifhardware@gmail.com	Signed out
Emador Hardware	emadorhardware@gmail.com	Signed out
micky vermani	micky.vermani06@gmail.com	Signed out
Micky Vermani	mexaglassfilms@gmail.com	Signed out

The Windows taskbar at the bottom shows several open applications: File Explorer, Google Chrome, Mail, and PowerPoint. The system tray on the right indicates the time is 12:45 PM on 6/4/2020.

Step 2: Create a new Blog

Create a new blog

Title

0 / 100

NEXT

A screenshot of a mobile form titled "Create a new blog". The form has a white background and a thin grey border. At the top, the title "Create a new blog" is centered. Below it is a text input field with the placeholder text "Title" and a red underline. To the right of the input field, the text "0 / 100" indicates the character count. At the bottom of the form, there are three buttons: "SKIP" on the left, "CANCEL" in the center, and "NEXT" on the right, all in red text. A large green arrow points from the left towards the "Title" input field.

Type title of the blog

Step 3: Select your Theme and Apply

The screenshot shows the Blogger theme selection interface. The browser address bar displays `blogger.com/blog/themes/4675795253834567245`. The Blogger logo is visible in the top left. On the left sidebar, the 'Theme' menu item is highlighted with a green arrow and the word 'Contempo' is written above it. The main content area shows a preview of the 'Contempo Light' theme, which is currently selected. Below the preview, there are several other theme thumbnails. The Windows taskbar at the bottom shows the time as 12:55 PM on 6/4/2020.

Step 4: Click Plus Sign for the creating a new post!!!

The screenshot shows the Blogger dashboard interface. At the top, there are browser tabs for 'Blogger: Page Stats' and 'Blogger: Posts', and the address bar shows 'blogger.com/blog/posts/4675795253834567245'. The Blogger logo and a search bar are visible. On the left, a navigation menu includes 'Computer Science', 'View your blog', 'Posts', 'Stats', 'Comments', 'Earnings', 'Pages', 'Layout', 'Theme', 'Settings', and 'Reading List'. The main content area shows a 'Notices (1)' section with a yellow background containing text about European Union laws and cookies. Below the notices, it says 'All (0)'. At the bottom right, there is a 'Create New Post' button with a red plus sign, which is highlighted by a large green arrow. The Windows taskbar at the bottom shows several open applications and the system clock indicating 12:51 PM on 6/4/2020.

Step 5: You can write on your post, insert images, insert video links

Step 6: Type Title and Label for the contents!!!

The screenshot displays the Blogger 'Post Edit' interface. At the top, the browser tabs show 'Blogger: Page Stats', 'Post Edit', and 'Computer Science'. The address bar contains the URL 'blogger.com/blog/post/edit/4675795253834567245/8570016118167018190'. The Blogger logo is visible in the top left corner. The main editing area features a 'Title' field with a green arrow pointing to it. Below the title field is a rich text editor toolbar with various icons for text formatting, alignment, and linking. To the right of the editor is a sidebar with several sections: 'Labels' (with a green arrow pointing to the 'Chapter 1 (Create new)' option), 'Published on' (set to 6/4/20 12:55 PM), 'Permalink', 'Location', and 'Options'. The Windows taskbar at the bottom shows several open applications, including Chrome, File Explorer, and PowerPoint, along with the system clock indicating 12:58 PM on 6/4/2020.

Step 7: Click options for setting up of readers comments!!!

The screenshot displays the Blogger 'Post Edit' interface. At the top, the browser tabs show 'Blogger: Page Stats', 'Post Edit', and 'Computer Science'. The address bar contains the URL 'blogger.com/blog/post/edit/4675795253834567245/8570016118167018190'. The main editing area includes a 'Title' field and a rich text editor with various formatting tools. On the right side, the 'Post settings' sidebar is visible, containing sections for 'Labels', 'Published on' (6/4/20 12:55 PM), 'Permalink', 'Location', and 'Options'. A large green arrow points to the 'Options' menu item. Below 'Options', the 'Reader comments' section is partially visible, showing three radio button options: 'Allow' (selected), 'Do not allow, show existing', and 'Do not allow, hide existing'. The Windows taskbar at the bottom shows several open applications and the system clock indicating 12:59 PM on 6/4/2020.

Step 8: Click on publish Button

The screenshot displays the Blogger 'Post: Edit' interface. At the top, the browser address bar shows the URL: `blogger.com/blog/post/edit/4675795253834567245/8570016118167018190`. The Blogger logo and navigation icons are visible in the top left. The main editing area includes a 'Title' field and a rich text editor with various formatting tools. On the right side, a 'Post settings' sidebar is open, showing options for 'Labels', 'Published on', 'Permalink', and 'Location'. A large green arrow points to the 'Publish' button located at the top right of the editing area. The Windows taskbar at the bottom shows several open applications, including Chrome, File Explorer, and PowerPoint, along with the system clock indicating 12:54 PM on 6/4/2020.

Step 9: View Your Blog!!

The screenshot shows the Blogger dashboard interface. At the top, there are browser tabs for 'Blogger: Page Stats', 'Blogger: Posts', and 'Computer Science'. The address bar shows the URL 'blogger.com/blog/posts/4675795253834567245'. The Blogger logo and a search bar are visible in the header. On the left sidebar, the 'View your blog' link is highlighted with a green arrow. Below the sidebar, there is a 'Notices (1)' section with a yellow background containing a notice about Google's use of cookies. The main content area shows a post titled 'Computer Science' published on Jun 4, with a 'Chapter 1' tag. A 'Create New Post' button is visible in the bottom right corner. The Windows taskbar at the bottom shows various application icons and the system clock indicating 1:03 PM on 6/4/2020.

Step 10: Linking with the other pages

Blog also provide option to create webpages separately and also we can link these webpages with the existing post.

The screenshot shows the Blogger dashboard interface. The browser tabs at the top include 'Blogger: Page Stats', 'Blogger: Posts', and 'Computer Science'. The address bar shows the URL 'blogger.com/blog/posts/4675795253834567245'. The dashboard header includes the Blogger logo, a search bar, and a 'Notices (1)' notification. The left sidebar contains navigation options: 'View your blog', 'Posts', 'Stats', 'Comments', 'Earnings', 'Pages', 'Layout', 'Theme', 'Settings', and 'Reading List'. A green arrow points to the 'Pages' menu item. The main content area is partially obscured by a yellow cookie notice. Below the notice, a post titled 'Computer Science' is visible, published on Jun 4, with a 'Chapter 1' tag. In the bottom right corner of the dashboard, there is a 'Create New Post' button, which is also highlighted by a green arrow. The Windows taskbar at the bottom shows several open applications and the system clock indicating 1:03 PM on 6/4/2020.

Step 11: Insert contents on page in similar fashion as on post!!!

Step 12: Then Click on Publish Button

Step 13: Insert contents on page in similar fashion as on post!!!

Then Click on eye Button: with the help of this you can see the link of the page on browser

Step 14: Copy the link and now you can insert any where on existing post!!
Created page will be linked to the post

Step 15: Click on Create link option

Step 16: Write text to display and copy the link, choose the option open in new tab or in same tab

Edit Link ×

Text to Display
Career Options

Link to Web Address
 Link to Email Address

URL to link to [Test this link](#)
https://computerscience-ppsna

Not sure what to put in the box? First, find the page on the web that you want to link to. (A search engine might be useful.) Then, copy the web address from the box in your browser's address bar, and paste it into the box above. Make sure your link starts with a scheme (**http** or **https**) unless you want a relative link.

Open this link in a new window
 Add 'rel=nofollow' attribute ([Learn more](#))

CANCEL OK

In published post you can see the link,
when you click it you can see page what
you have created earlier.

Step 17: Posting

- The final stage of your blog development is actually adding material for your audience. Be creative, informational, or however the wind takes you.
- Nevertheless it is now become source of income

Any Query?
