07 CONCLUDING REMARKS

1. INTRODUCTION

- Duolingo is a website and mobile app based platform (Learning synced) aimed at free language learning and certification
- Using a freemium model founded by Luis von Ahn, Severin Hacker in the year 2009
- As of June 2021, the language-learning website and app offers 106 different language courses in 40 languages.
 - The app has over 300 million registered users across the world.

2.

HOW IT WORKS

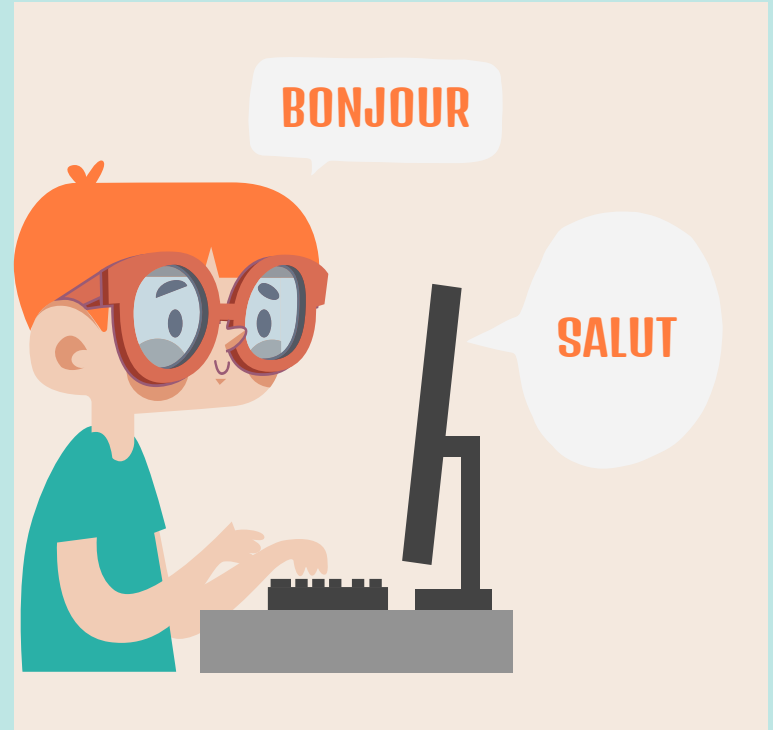

- Duolingo only gives you words/phrases/sentences using an algorithm based on your skill level:

Beginners → **Simple**

Advanced → **Complex**

- Learners unlock each level to progress further
- Curriculum is divided into skills each comprising 2-10 lessons

WHY SHOULD WE USE IT?

GAMIFICATION POURED INTO EVERY LESSON

SKILL TREE

- In-Lesson Grading
- Ease of Use (UI)
 - Trackable Progression

STRENGTHEN ALL AREAS OF COMMUNICATION

FLUENCY

- Listening
- Speaking
- Reading
- Writing

PERSONALISED EDUCATION

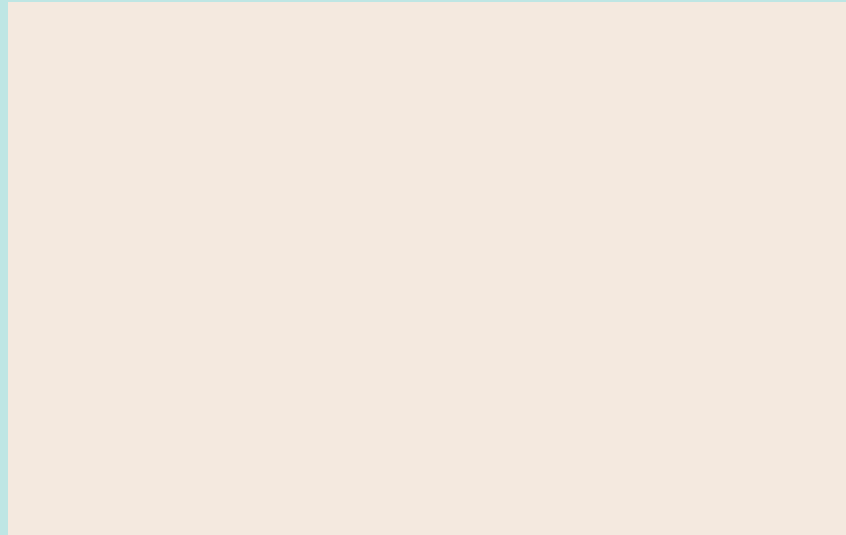

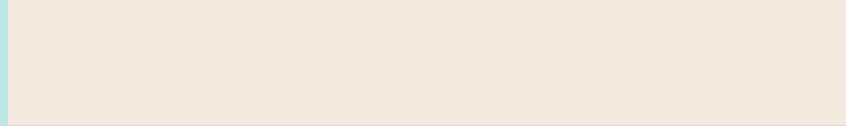

MASS CUSTOMISATION

Giving everyone a
private tutor
experience through
Technology

DUOLINGO IN CLASSROOM

Teachers have access to “Duolingo for Schools” with features to track students

If you have friends using Duolingo, you could have a lot of fun with the leaderboard functions and other little competitions. This could be motivating for learning with classmates in the school setting!

You could use Duolingo in different ways, such as:

Warm up exercise at the start of your lessons

Activity for early finishers

Summer revision so students can keep up with their skills

Homework replacement

CONCLUDING REMARKS

- Duolingo could be a motivating way to have students practice a language. It's not perfect but it is a lot better than many other things you could do when you have a few minutes to use your mobile device.
- Try not to rush through the course. Duolingo gives you the freedom to find your own sweet spot!
- This platform helps overcome the challenge of 3C's- Commitment-Consistency and Concentration

THANKS!
