

## Story of My ICT Journey

**Name-** Kaustubh Chandra Joshi, Principal

**School Name-** SDSB Govt. Inter College Pratappur- Chakaluwa(Kotabag), Nainital (Uttarakhand)

**Mobile Number-** 9412375389 , **E-mail-** [kaustubh7165@gmail.com](mailto:kaustubh7165@gmail.com)

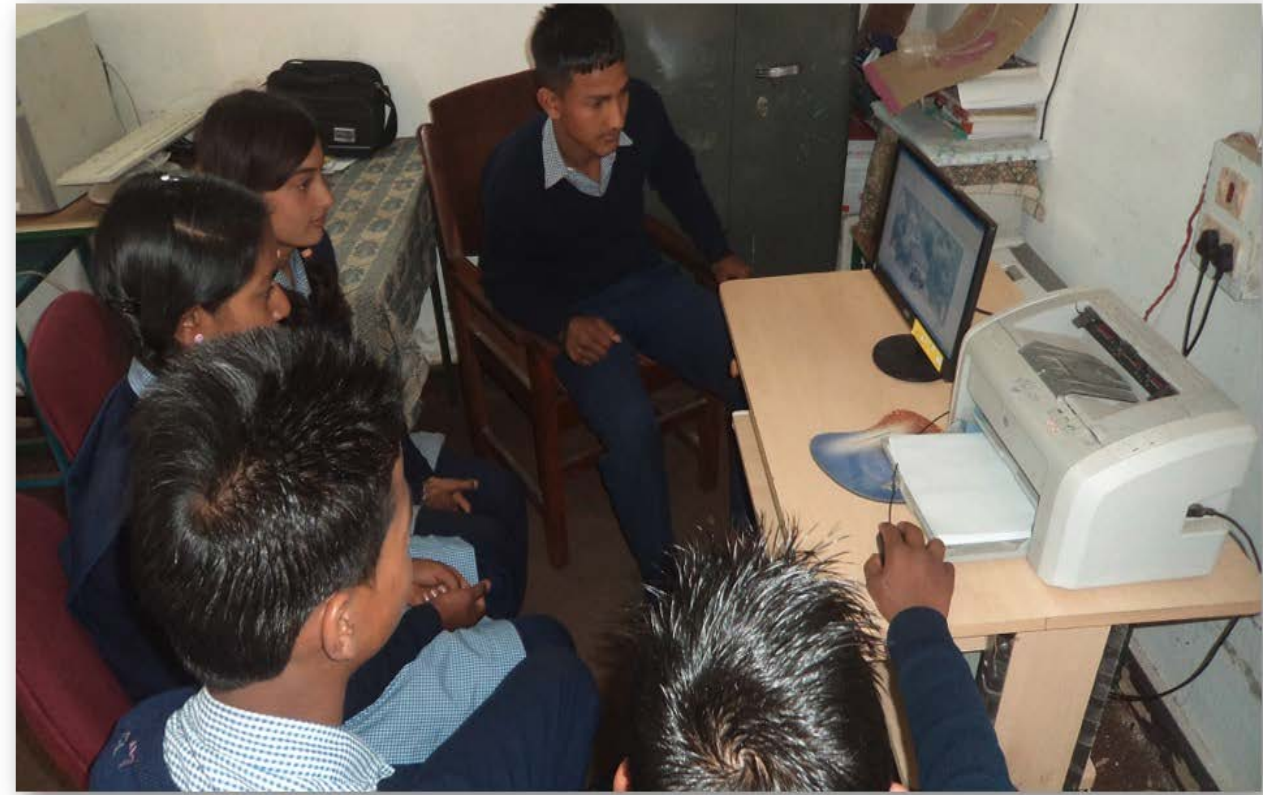

I, Kaustubh Chandra Joshi was appointed as Trained Graduate Teacher (Science / Mathematics) at Uttarakhand School Education department on 1 July 1989 and was promoted to Post Graduate Teacher(Mathematics) on 30 December 1999. I was promoted to the Post of High School Headmaster on 10 September 2016. At present, after being promoted on 08 January 2022, I am working as Principal at SDSB Govt. Inter College Pratappur- Chakaluwa, District- Nainital, State- Uttarakhand. I am currently working as Principal as well as ICT KRP and NCERT Executive committee member.

I got a chance to get Basic Computer Training first time, from 06 February 2003 to 20 February 2003 by INTEL under Dept. of Education, Uttarakhand. Later I got Advance Computer Training from 01 October to 17 October 2004 by MICROSOFT. As the outcome of this training, I was able to implement the training knowledge in my school. I computerized the whole school official data, students activities and other records. I trained 10 teachers & office clerks as a Master-Trainer. In this way, every activity and records were stored in digital office. After that I regularly maintained Time -Table, Staff-Statement, GPF, Income-Tax, Staff R.D., Examination results and now the output is in form of development of Presentations for my students.

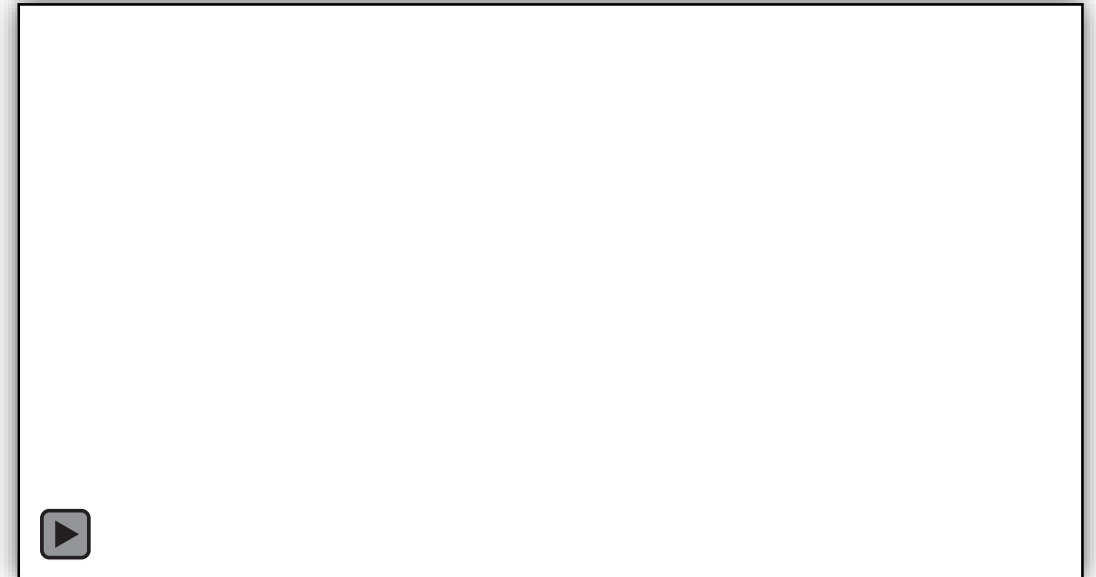

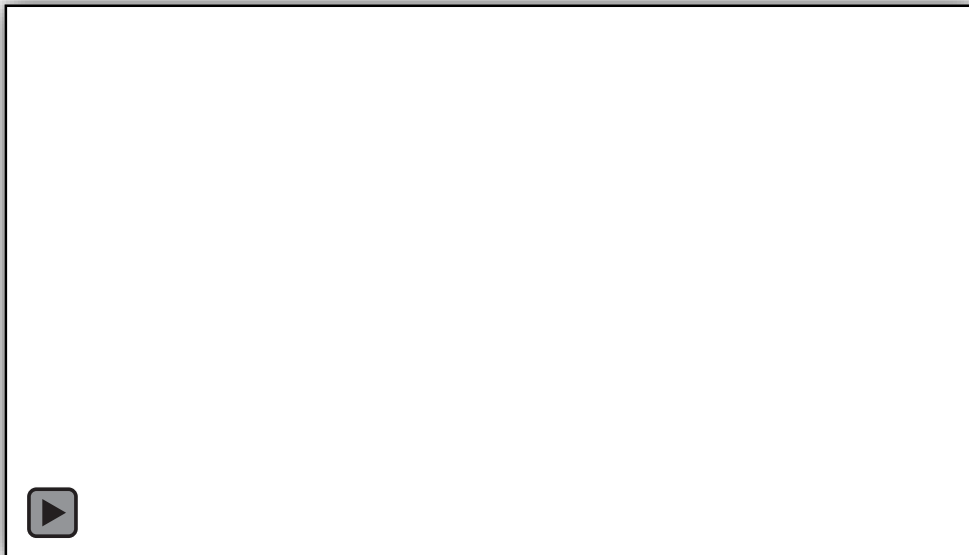

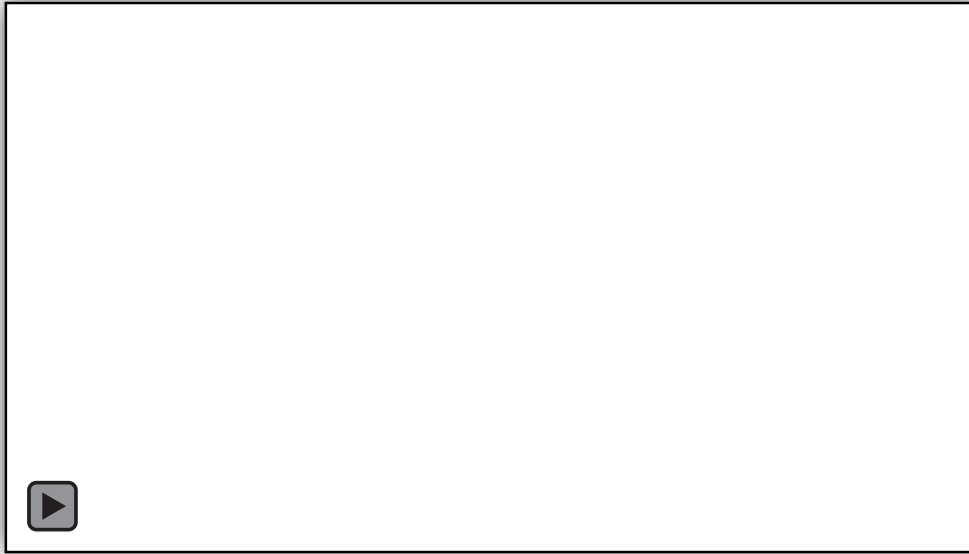

I realized the true power of the computer Technology and soon the interest turned into a passion. It was the year 2005 and after that; I purchased one Laptop, All in one printer-copier-scanner, digital Camera, Smart mobile, and one Net-setter at home. I committed myself to using the computer Technology to make the learning process more exciting, interesting, and creating the maximum impact on our school students. My attitude towards teaching has changed.

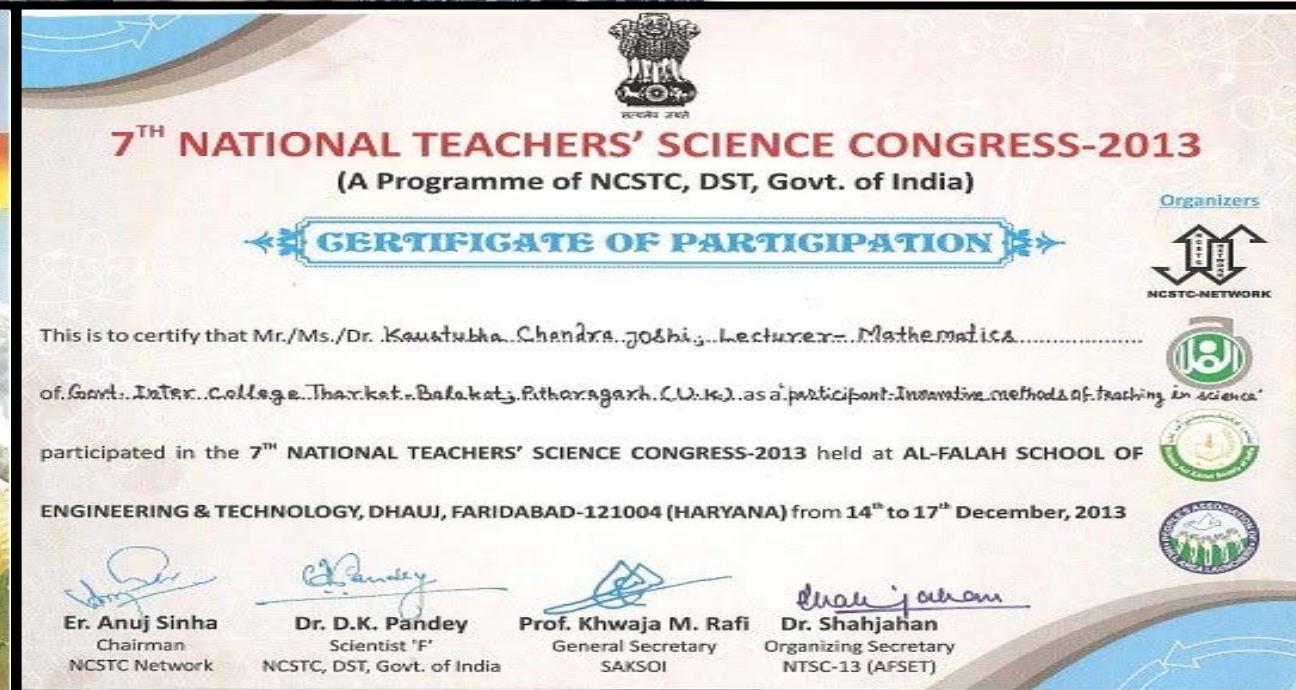

Now if any student finds it difficult to understand a topic, I take him to the lab and show it to him through presentation that I may have. The students became more interested in their subjects. I started the concept of e-teaching, in which various components of ICT were to be used in classroom.

In the year 2013, I received awards for best teacher's project by UCOST, PAHAL & Uttarakhand Govt in "1<sup>st</sup> Uttarakhand Teacher's Science Congress". In the same year, I have also received "Participant-Innovative methods of teaching in science" certificate by NCSTC, DST & Govt. of India in "7<sup>th</sup> National Teacher's Science Congress".

Students of my school are consistently excelling in the National Children's Science Congress. I contributed to the activities of "Children's Science Congress" and RMSA at the district level.

It was the year 2013, when I got an opportunity to attend National ICT award jury meeting where I knew about GeoGebra software. Now, I found GeoGebra more useful as compared to PPT for the purpose of teaching mathematics as it seemed to me an easy tool to integrate with teaching learning process. It seemed to me that Students can learn themselves with GeoGebra. I attended National ICT Award Jury meeting 2015 and came to know about FOSS operating system. I changed the Operating System of my school lab because they were running on pirated software's.

I am a resource person of ICT for imparting training to teachers. In December 2014, I have given 5 days ICT training to 39 teachers in my district from secondary level to senior secondary level.

I organized DIGITAL ONLINE QUIZE during Digital India week (1<sup>st</sup> July to 17<sup>th</sup> July 2015) in my school and my students achieved "Certificate Of Participation" in Digital wellness Online Challenge.

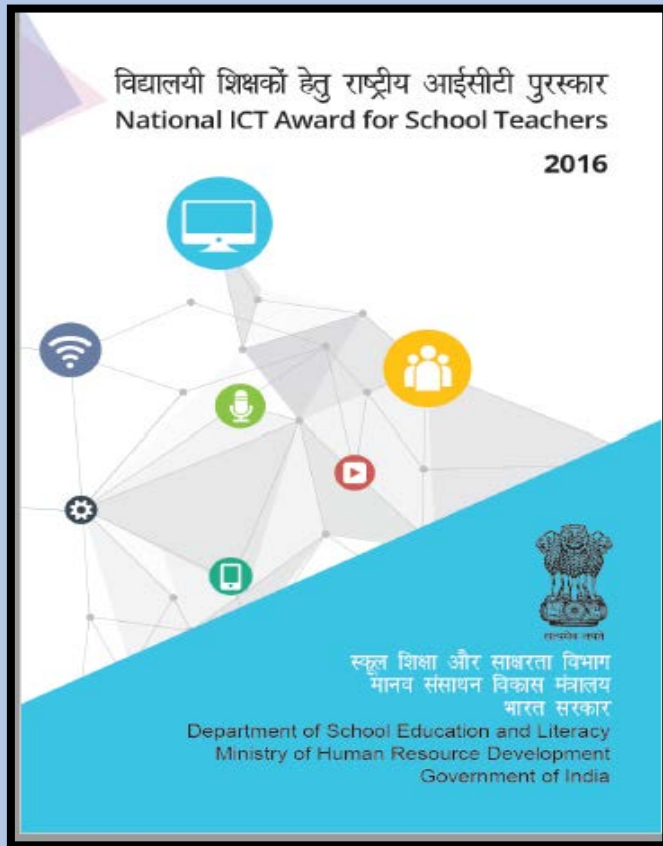

I received Microsoft Certificate of Learning – Teaching with Technology by successfully completing the six teaching with technology course assessments on 8 Nov.2015.

I have received national ICT award 2016 on 5 September 2017 by president of India, which is given in recognition of effective and innovative integration of ICT in Promoting students learning.

In order to solve the problem of Remote school, I created a digital library containing NROER, Arvind Gupta Toys, Nayi-Kiran, self-generated e-content and downloaded e-content stored in computer lab. This helped us to conduct classroom in absence of internet and teachers.

### **Mr. Kaustubh Chandra Joshi - Uttarakhand**

The teacher has been using ICT to teach Science & Mathematics to students of classes 6th to 10th and 11<sup>th</sup> and 12th. Helped establishing a computer lab, he trained the teachers and office staff of his school. Besides these, he has developed Digital Library and computer club in his school and extensively using the same for students learning.

**Department of School Education and Literacy  
Ministry of Human Resource Development  
Government of India**

In the year 2017, I created a Nayi-kiran website with the help of District Magistrate Pithoragarh with the objective of e-content availability to students through ICT in remote schools where there are no teachers.
