Hari Krishna Arya

National ICT Awardee 2011

MIE Expert, MIE Fellow, MIE Master Trainer, MIE Global Learning Mentor

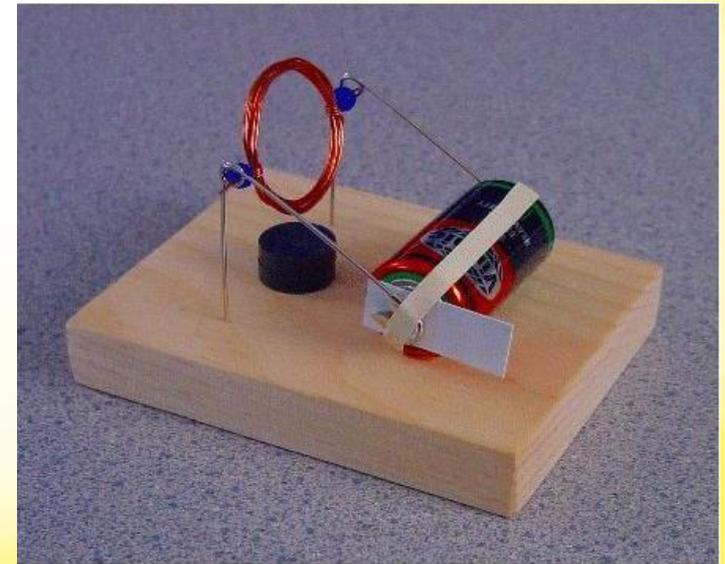

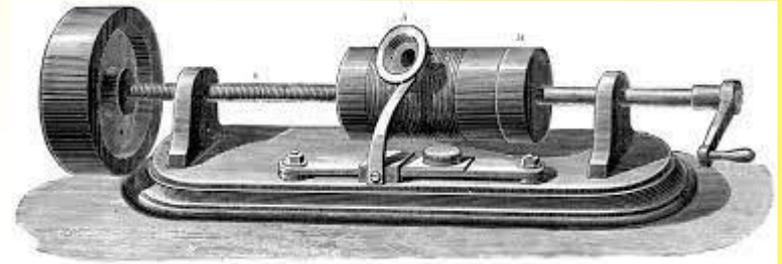

UNESCO Digital Teacher Course Facilitator

Director (Academics), GIS, Hanumangarh (Rajasthan)

I was very much attached to scientific and technical activities since childhood. Primary education took place in my village itself, where there was an acute shortage of resources, yet many demonstration materials related to science, working models were made. Therefore, it can be said that this journey of mine started from childhood itself.

Education from VI to VIII (1964-65, 65-66, 66-67) took place in a town. There were resources available, library facilities were also there. While there, I had made many complex science apparatus. In which from electric motor, telephone etc. to mechanical device of sound recording and sound production, equipment to show running horse, radio transmitter, radio receiver, remote control device etc. The introduction to science magazines also happened at the same time.

Wanted to study further in the Faculty of Science. But this wish of mine could not be fulfilled. Due to some compulsions, I had to return to my native village, where there was only a primary school. My father was a teacher in the village itself. After being relieved from this responsibility, he started a small business in the village itself. It had become necessary for me to stay there to support my father's work.

Journey of National ICT Awardee

अजमेर,
दिनांक 4 जून, 1970

नियमित अभ्यर्थी को आंतरिक मूल्यांकन प्रमाण-पत्र अंकतालिका के साथ दिया गया है।

While living in the village and helping in my father's work, I passed the Secondary School and Higher secondary examinations as a private student. At that time the board of our state Rajasthan did not allow private candidates to take science subject. So I had to pass Secondary School and Higher Secondary Exams. With arts subjects. I, who came first in every class till class VIII, could now pass only with normal marks.

But soon the good times returned. By a sudden coincidence, I came to know that the Vikram Vishwavidyalaya of Madhya Pradesh allows Private students to appear in B. Sc. I applied there for B. Sc. as a private candidate. On the day when I received the enrollment letter for B. Sc., my happiness knew no bounds. But now I had a big challenge front me. I was already behind three years in the study of science subjects.

But now I had a big challenge front me. I was already behind three years in the study of science subjects. Working in a village with no resources, without anyone's guidance and working all day long with father, it was a very difficult task to pass B.Sc. But I firmly engaged in this work. After staying awake throughout the night, studying in the dim light of kerosene lamp, finally within the prescribed period of three years I succeeded in passing B.Sc. with good marks.

I had a passion for reading magazines. During my B.Sc. study period, I had a desire to write in these. My first article "**Paudhe bhi chalte hain**" was published in the May 1972 issue of **Vigyaan Pragati**. I was not even 20 at that time. After a short time, I also started writing and presenting Radio Talks on All India Radio. With this my "communication" journey also started.

ALL INDIA RADIO STATION

JAIPUR

Talks/Short Story Branch

No. Jai-15 (7) HT/74-PI.

Dated..... 8.11.74 19 ..

To

Shri Hari Krishna Arya,

P.O. KIRADABADA, Via- KALANA,

Distt; SRI GANGANAGAR (RAJ)

(Camp: Jaipur)

Dear Sir/Madam,

We shall be pleased to broadcast your talk(s)/short story on the subject, date and time detailed below upon the conditions printed overleaf. We shall be obliged if you would kindly sign and return the attached confirmation sheet not later than.....

*Title..... **BHAVISHYA KA EENDHAN: TALK IN HINDI**

Date(s)..... **11.1.75 (Recording on 18.11.74 at 3.00 p.m.)**

Time of Broadcast..... **8.05 p.m.**

Duration..... **10 mts.**

Place of Broadcast..... **All India Radio, Jaipur**

Fee..... **Rs. 30/- (Rs. Thirty only)**

Subsequent Broadcast Fee..... **Rs. 7/50 (Rs. Seven and paise fifty only)**

[Subject to Clause 4(a)/4(b) of Conditions printed overleaf.]

We would particularly ask you to assist us by complying with the condition that the manuscript of the talk/short story should be in the hands of the Station Director not less than ten days before the date fixed for the broadcast. The normal routine of the Station is seriously hampered if this condition is not observed.

Once the writing started, it continues till now. So far, more than three hundred articles have been published in various prestigious journals of the country on science, pedagogy, ICT subjects and more than a hundred radio talks have been broadcasted from Akashvani. Writing work was my need at that time, today it is passion. The honorarium received from writing allows me to pursue my upcoming studies M.Sc. and B.Ed.

B.Ed. Completed from a good institute - Govt. Teacher's Training College, Bikaner (now upgraded to IASE). There in the ET Lab all the modern equipment of that time were available like Slide Projector, Film Strip Projector, Epidiascope, Overhead Projector, 16 MM Motion Picture Projector etc. I was very interested in them. These tools were used very little, now due to interest showed my me, they are being used extensively. There was no operator to operate the 16 MM Motion Picture Projector. I learned to drive by reading its manual.

After doing B.Ed., I got appointment on the post of Lecturer Biology in the School Education. While working in this position, attempts were made to make teaching interesting and effective by the use of ET and TLM. Due to this, the examination results of the children were excellent, but the intimate relationship formed with them remains intact even today.

By that time a little bit use of computers had started. I used to read articles, information about computers with great interest. There was a lot of desire to have a computer and learn it. But it was very expensive. In fact, I had not even seen a computer till then. I saw the computer and its working for the first time in December 1991 during a training of head of the institutions at IASE Bikaner. Those were very exciting moments for me.

After this my interest in computers increased even more. I had now started efforts to get posted in Bikaner IASE. Three years later, in November 1994, I was posted there as Reader. But now the circumstances had changed there. The computer lab was never opened. I made several efforts to open computer lab and take charge of it myself, but these were without success. Finally, after a year in 1995, I got transferred again to my home district Hanumangarh.

I just had to wait two more years to learn computer. In 1997, I was posted in the biggest school of Hanumangarh district headquarters. As soon as I joined there, I started making efforts to install computers in the school. My efforts paid off and under the Central Government's CLASS (Computer Literacy and Study Scheme) project, the school got approval to install five Pentium 1 computers of the latest technology of that time and a Dot-matrix printer. I was so happy. But the happiness did not last long.

Even before the installation of computers, I was posted as Additional District Education Officer. This was such a post for which everyone remains appetent, but I had to join this post with my broken heart. Incidentally, at that time our director was a very intelligent and good person. In a departmental meeting, I told him about my interest and academic taste, so he accepted my request and again posted in the same school.

After that I stayed in that school for about 15 years. And this was where my real ICT journey started. During my tenure, the school has established many records in the field of ICT not only at the national level but also at the international level.

Our First Computer Pentium 1

In July 2001 we procured 10 Pentium – 2 Computers under Self Finance Scheme

25th August 2001

Was a great day for us
On this day our school was connected with Internet

Our school was first Government School
to connect with Internet

I started using ICT in my Teaching

Our Computer Lab was Open for all
Our school was first school in Rajasthan state
To start formal computer Education

Received Computer Literacy Award on 4th August 2004

माननीय श. शर्मा जी

महामहिम राष्ट्रपति महोदय द्वारा कम्प्यूटर शिक्षा में उत्कृष्ट कार्य के लिए "द्वितीय कम्प्यूटर उत्तमता पुरस्कार 2003" से सम्मानित किये जाने पर आपको हार्दिक बधाई।

सरकारी इंटरनेट सुविधा से जुड़ने वाला यह राज्य का पहला स्कूल है जिसने कम्प्यूटर के प्रति जागरूकता पैदा कर सम्मान प्राप्त करते हुए प्रदेश का गौरव बढ़ाया है। मुझे खुशी है कि संस्था की अपनी वेबसाइट है, जिस पर हिन्दी में सूचनाएं प्राप्त की जा सकती है।

मैं संस्था की उत्तरोत्तर प्रगति की कामना करती हूं।

शुभकामनाओं सहित,

सद्भावी,
