

***My Journey to***  
***National ICT Award 2019***

***M. S. Kumar Swamy***  
***TGT(Maths)***  
***KV Gachibowli, Hyderabad***

I started my teaching career in **School of Studies in Electronics, Pt. Ravishanker Shukla University, Raipur** as Adhoc Lecturer from July 2000 to July 2003.

After that I joined Central College of IT, Raipur as **Assistant Professor in Physics** from August 2003 to July 2004

Along with Central College of IT, I worked in **Padmavati Vidya Mandir, Fafadih Raipur** teaching Maths and Science till 19th February.

After that, I joined **St. Xavier's High School** as a **Maths teacher** from 21st Feb 2005 to 30th June 2006 teaching Classes IX to XII Mathematics.

After that I joined **Shri Kailashpat Singania Hr. Sec. School** as TGT(Maths) from 6th July 2006 to 11th November 2008.

- On November 2006, I purchased my first PC (Desktop) with Pentium-4 and 256 MB RAM.
- I started preparing Sample Papers for Class X and Class XII which is to be conducted on Every Sunday.
- I started preparing Chapter wise Important Questions for Class X and Class XII Maths Board Exam.
- **I got very good response from the Students and parents.**

Finally, I got selected in **Kendriya Vidyalaya Sangathan** as **TGT(Maths)** on 12<sup>th</sup> November 2008 and posted in **KV Jayant Colliery** at the age of 31 year.

In **KV Jayant**, I was taking regularly **classes** using **PowerPoint presentations** especially in **Geometry**.

After the implementation of CCE, I started preparing **MCQ worksheets** in the form of PowerPoint presentation for the revision purpose.

I was also prepared some sets of **Important questions** and **Sample Papers** for Class X Board Exam which was appreciated by Education Officer (now, Assistant Commissioner) during the Panel Inspection.

Joined **KV Donimalai** (Hard Station)  
on 11<sup>th</sup> October 2010 on request transfer

In **KV Donimalai**, I started preparing Practice questions as well as **MCQ Worksheets sets for all classes VI to X** for which my Principal and Chairman appreciated my work.

Later in 2011, I started preparing **Maths Question bank for all classes VI to X** and **Sample papers for SA1 and SA2** so that the students can practice and develop their study habits.

I learned from this that the students develop their interest automatically if their own teachers prepare study materials for them.

In the session 2012-13, I started preparing **Physics Reference materials for Class IX and X** along with revised Maths Questions bank for all classes VI to X.

I started circulating to all the KVS Regional office through mail.

I have received an **appreciation letter from the then DC, KVS RO Bangalore on Teacher's day 05/09/2013.**

Dear Shri M.S.Kumarswamy,

It has been brought to my notice the good work done by you with regard to making question bank and worksheets for classes VI to X in Mathematics. I am pleased to look at your good work. Mathematics is one discipline which unfortunately and wrongly perceived as a phobia. May be lack of motivation from teachers and inadequate study habits of students is responsible for this state of affairs. Your work in this regard assumes a great significance. I hope your own students as well as students of other Vidyalayas will benefit by your venture. You may mail the material to all the Kendriya Vidyalayas of the region for their benefit. Keep up the good work.

May God bless!,

Yours sincerely,

# MY YOUTUBE CHANNEL

On the request of many children (including my students) who are using my website blog, I started preparing my video lesson. **I was sharing the video lessons through WhatsApp to my children which was boon to my students for doing revision.**

In order to share the video lessons with other students, I have prepared my YouTube Channel **"Kumar Online Channel"** in which I have uploaded more than 700 video lessons for Class IX and X students including all Chapters and Revision series.

Many students and teachers are using my video lessons from different regions of India and in 27 other countries.

## Building as Learning Aid (BaLA) - as ICT Tools

School buildings have traditionally been conceived and treated merely as brick and mortar structures to house education activity. The interface between the building design and the design of the teaching and learning programme has received scant attention, and the possibility of using the physical space as a learning resource only sporadically explored. Building as Learning Aid, or BaLA as it is popularly known, is about developing school spaces — the classrooms, the floors, walls, doors, windows, pillars, corridors, the outdoor spaces and the natural environment — as learning resources.
