Pedagogical Transformation

Online learning is catalyzing a pedagogical shift in how we teach and learn. There is a shift away from **top-down lecturing and passive students** to a more **interactive, collaborative approach** in which students and instructor co-create the learning process.

The Instructor's role is changing from the

“**Sage on the Stage**” to the “**Guide by the Side.**”

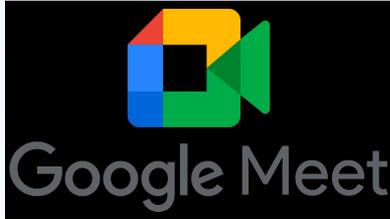

About the session

- **Communication/ Connection Tools** – Platforms for online connectivity
- **Interactive Teaching Tools** - For better engagement and learners interaction in real time.
- **Collaboration Tool** - For effective Resource Sharing, Problem solving and Linkages
- **Design and Creation Tool** - For creation of E-Content and OERs
- **Assessment Tools** – To assess the learners based on their potentials
- **Hands on Session** ([Classroomscreen.com](https://www.classroomscreen.com))

Connection Tools : Video Conferencing Platforms

These tools allow educators and students to communicate and collaborate in real-time, using audio, video, and screen sharing. Examples include Zoom, Skype, and Google Meet.

Teaching Tools : Learning Management Systems (LMS)

These are platforms that allow educators to create and deliver online courses and materials, track student progress and manage assessments and grades.

Examples include Blackboard, Moodle and Canvas.

START NOW.

Start where you are. Start with fear.

Start with pain. Start with doubt.

Start with hands shaking.

Start with voice trembling but start.

Start and don't stop.

Start where you are, with what you have.

Just start.
