

Testmoz

Test Generator

Presented By:

**Mr. Pramod Kumar Malik,
Lecturer, SCERT Delhi**

Testmoz- Introduction

- Testmoz is an excellent web tool that allows you to create auto graded tests and quizzes.
- Testmoz also provides detailed reports so teachers can analyze students scores and responses.

Testmoz- Test Generator

Testmoz is a very fast and simple way to generate an online exam for students.

Name the Test, set password, ready to create. Set the rules, add questions, preview the test.

Publish the test and share the URL with student. Students can attempt the exam straight away.

Testmoz- Test Generator

View results and generate report in different ways.

No Registration for Test Takers, Low Bandwidth, Mobile friendly.

Free version has limitations-

50 questions and 100 results per test

FAQs

Build a Test

Login/Sign Up

**Easily create tests for your class,
business or organization.**

Distribute your tests online and get the results
instantly. Testmoz does all the grading for you.

Click to create
exam

Build a Test

Try a Demo Test

[Watch a Demo](#)

Testmoz is (very) simple.

① Adjust a few settings.

In a few clicks, you can completely customize your test.

② Add your questions.

On a single page, you can insert, edit, and rearrange all your questions.

③ Distribute the URL.

Just email the URL to your students, or post on your website, and you're done.

visit <https://testmoz.com> or search testmoz from any browser

then Click on Build Test to proceed

Limitations

You can build a test for free on Testmoz, but remember these limits: 50 questions per test / 100 responses per test ([what happens if more than 100 people take it?](#))

You can [sign up](#) for a Testmoz account to remove these limitations.

Warning: **Very important**

1. Don't forget your password (you can't recover it!)
2. Don't forget your test URL (you'll see it on the next page)

❖ Enter Test Name, set password- required to login as a teacher to view results

❖ If you forgot password, no way to recover or reset. So save it carefully.

This is the control panel where you can adjust settings, add questions, publish the test, and view results.

Tasks

- Bookmark this page and write down your password**
It is absolutely critical that you do this! There is no way to recover the URL or password.
- Adjust settings**
Change the test name, description and what happens after the test is graded.
- Add questions**
It's not much of a test if it doesn't have questions.
- Publish & distribute**
Publish your test, distribute it to your students and start collecting results.
- View results**
See how well your students did on the test.

Question Settings

Question Settings

- Show **all** the test questions on one page (recommended for new users of Testmoz)
- Show **one** question per page
- Randomize the order of the questions during the test**

Review Settings

These settings control what happens after the test is completed and submitted by the test taker.

Conclusion Text

This text is displayed after the test is submitted.

B	<i>I</i>	<u>U</u>	S	x^2	x_2	☰	☰	☰	☰	☰	☰	☰	☰	☰	☰
T	☰	☰	☰	☰	☰	☰	☰	☰	☰	☰	☰	☰	☰	☰	☰

- Show a custom message if the student passed or failed

At the end of the test, display the user's:

- Score
- Test outline [?]
 - Indicate if their response was correct or incorrect
 - Display the correct answer
 - Display the explanation

Shuffling questions (options for users)

After exam send separate message to passed and failed students

Controlling the Access

Who can take your test?

Anyone

Anyone who enters a **passcode** of my choosing

Set the passcode your students will need to enter to start the test

It is case sensitive.

Password

Anyone who enters a **unique identifier** (student ID, employee ID, etc) from a list that I specify

Anyone who enters an **email address** from a list that I specify

What should test takers enter to identify themselves?

This text appears above the field where the test taker enters their identifier. It should tell them *what* to enter.

Examples: "Enter your name", "Enter your student ID", or "Please enter your company email address"

Enter your name

How much time do test takers have to complete the test?

The timer starts the moment they enter the test and continues even if they close out of the test.

Unlimited

60 minutes

Set time limit

How many times can someone take your test?

Unlimited

1 times

Set password to access the test

Time bound and restriction to number of attempts

Types of Question in Testmoz

Your test has no questions! Use the drop-down below to insert a question.

Preview and Publish

Publish ICT Tools

You need to publish your test to make it available for your students to take.

You can **preview your test** to make sure it looks good. It's OK to edit your test after you publish (but it may cause inconsistencies in the results).

Ready to publish?

We didn't find any problems with your test. Just click Publish and you're good to go.

Paper Copy

Testmoz tests are meant to be taken online. But if you need to a paper copy, you can print one here.

- View/print in your browser
- Download as Word doc

URL of the Published Test

Your test is published and available at:

Email that URL to your test takers (or post the URL on your class website) so they can take the test. The results will appear on the [Results](#) page.

Current status:

Open

This allows students to take the test.

Closed

This will prevent anyone from taking the test.

Scheduled

Pick an interval of time when students can take the test.

[Choose a date](#)

Save the URL somewhere and share with students
Take the test any time, or during the schedule or close the test.

Access the Published URL

The screenshot shows a web browser at the URL <https://testmoz.com/3037076>. A green callout box with a left-pointing arrow contains the text "Please paste the url generated after publish test". The page content includes a navigation menu with "Student Login" (highlighted with a blue box) and "Administration" (highlighted with a grey box). A red callout box with a left-pointing arrow points to "Administration" and contains the text "To see the results of the test". Below the navigation is the "ICT Tools" section with the text "Enter your name" and an empty input field. At the bottom of this section is a "Start" button, which is circled in green.

Students can take the test by clicking the URL
Teacher (Administrator) can access the results
