Create A Class

Starting a new class on Whiteboard.fi is fast and easy. To start a new class, navigate to <https://whiteboard.fi> and click on **New class**.

The screenshot shows the homepage of Whiteboard.fi. At the top, there is a navigation bar with the logo 'WHITEBOARD.fi' and links for 'HOME', 'FEATURES', 'PRICING', 'FAQ', 'ABOUT', and 'NEWS'. On the right side of the navigation bar, there are two orange buttons: '+ NEW' and 'JOIN'. The main content area features the 'WHITEBOARD.fi' logo in a large, orange, handwritten font. Below the logo, it says 'Free online whiteboard tool for teachers and classrooms!' and 'Latest release: December 3rd 2020'. There are four main buttons: a large orange button with '+ NEW CLASS' (highlighted with a red box and a mouse cursor), a large orange button with 'JOIN CLASS', a teal button with 'REGISTER', and a teal button with 'LOGIN'. On the right side of the main content area, there is a grid of 12 cartoon children standing at whiteboards.

Create A Class

After clicking on New class, a modal window will pop up.

New Class ✕

Create new class

You are about to create a new, temporary classroom that will be erased after 2 hours of inactivity. You will get a new room code each time. [Register a teacher account](#) to enable subscription licenses and permanent rooms.

Your name:

Your name will be displayed for the students joining your whiteboard class.

Settings

These settings can also be altered from the main menu after creating the room.

Enable waiting room lobby
If you enable waiting room lobby, every student needs to be accepted by you before they are let into the room. After creating the room, there is also an other option for locking the room (disabling new students from joining completely).

Enable manual save mode for students
Enabling manual save mode will disable the automatic whiteboard save functionality, and instead showing a "Save whiteboard" button. The whiteboards will not display or save without saving this button. This can be handy if you're on a limited or metered connection (as this drastically decreases bandwidth usage), or if you want the students to be able to draw freely and then publish / display their works at a certain time.

The form asks for the following details:

Your name

Your name will be displayed for the students joining your whiteboard class.

Create A Class

Enter the details into the form, and click on **Create new class**. Your class is now ready!

WHITEBOARD.fi

Room code: e5vd4 

 TOGGLE MY WHITEBOARD

Your students can now access this class by visiting

 COPY URL TO CLIPBOARD

 SHOW QR CODE

Their whiteboards will appear here automatically.

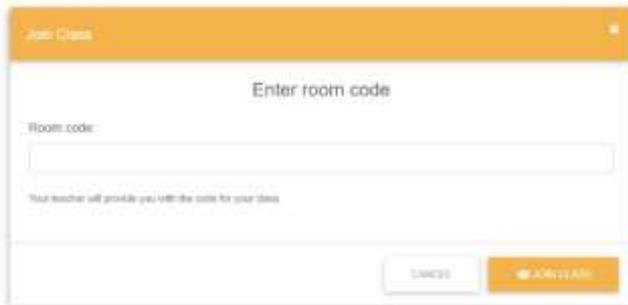

Join A Class

Joining a class via room code

1. Go to <https://whiteboard.fi>
2. Click on "Join class".

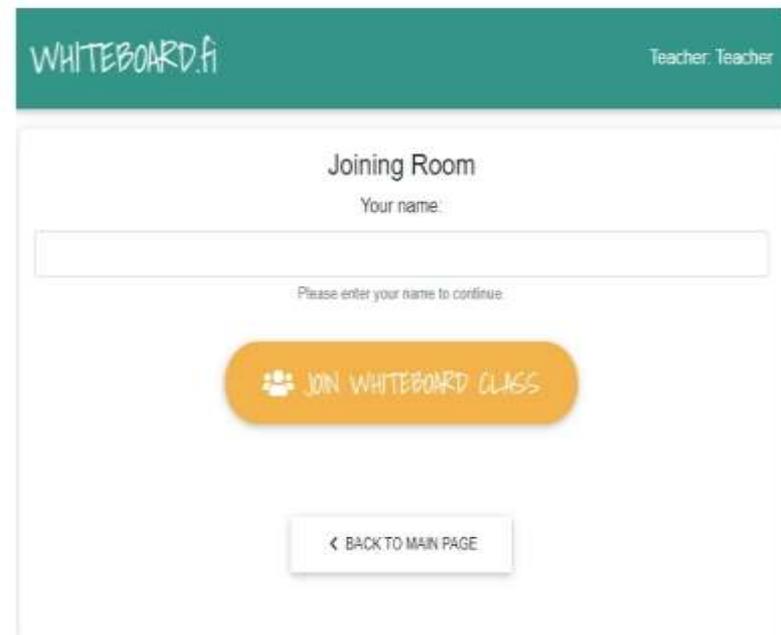

3. Enter the room code and click on **Join class**.

A screenshot of the "Join Class" form. The form has an orange header with the text "Join Class". Below the header, there's a text input field labeled "Enter room code". Below this field is a smaller input field labeled "Room code:". Below that, there's a note: "Your teacher will provide you with the code for your class." At the bottom of the form, there are two buttons: "CANCEL" and "JOIN CLASS".

4. Enter your name and click on **Join Whiteboard class**.

Joining a class via URL

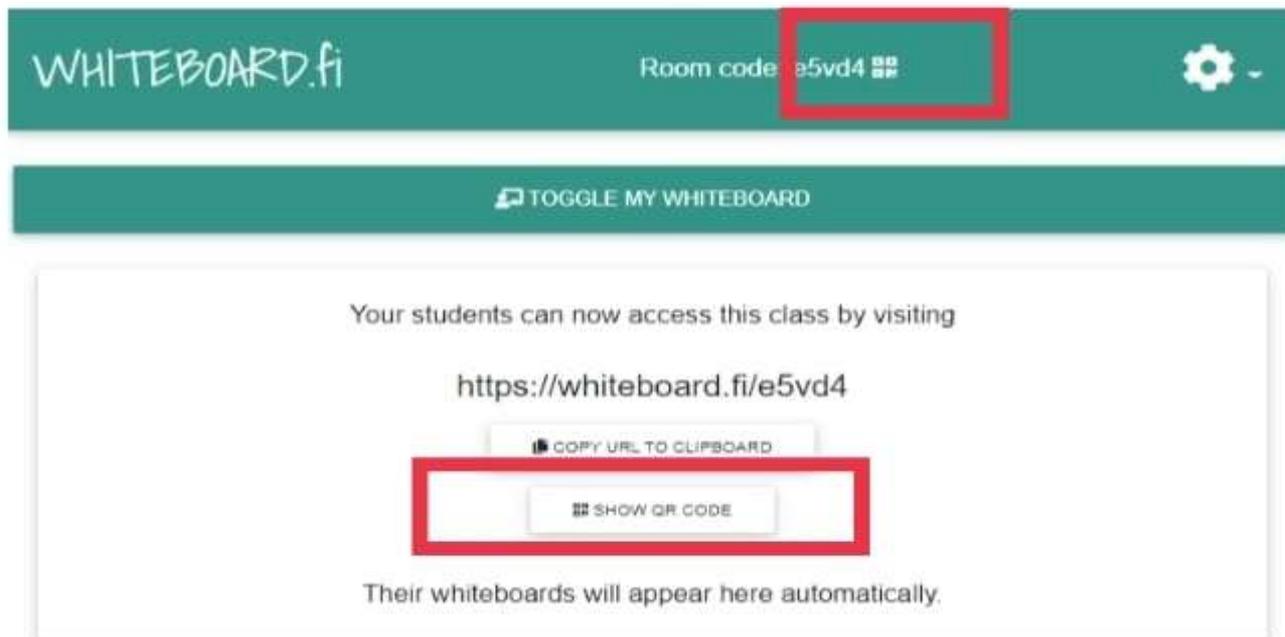

1. Navigate to the URL provided by the teacher.
2. Enter your name, and click on **Join Whiteboard class**.

A screenshot of the "Joining Room" form. The page has a green header with the logo and the text "Teacher: Teacher". Below the header, there's a main content area with the text "Joining Room" and "Your name:". Below this text is a text input field. Below the input field, there's a note: "Please enter your name to continue." Below this note is a large orange button with the text "JOIN WHITEBOARD CLASS". Below this button is a button with the text "< BACK TO MAIN PAGE".

3. Participate!

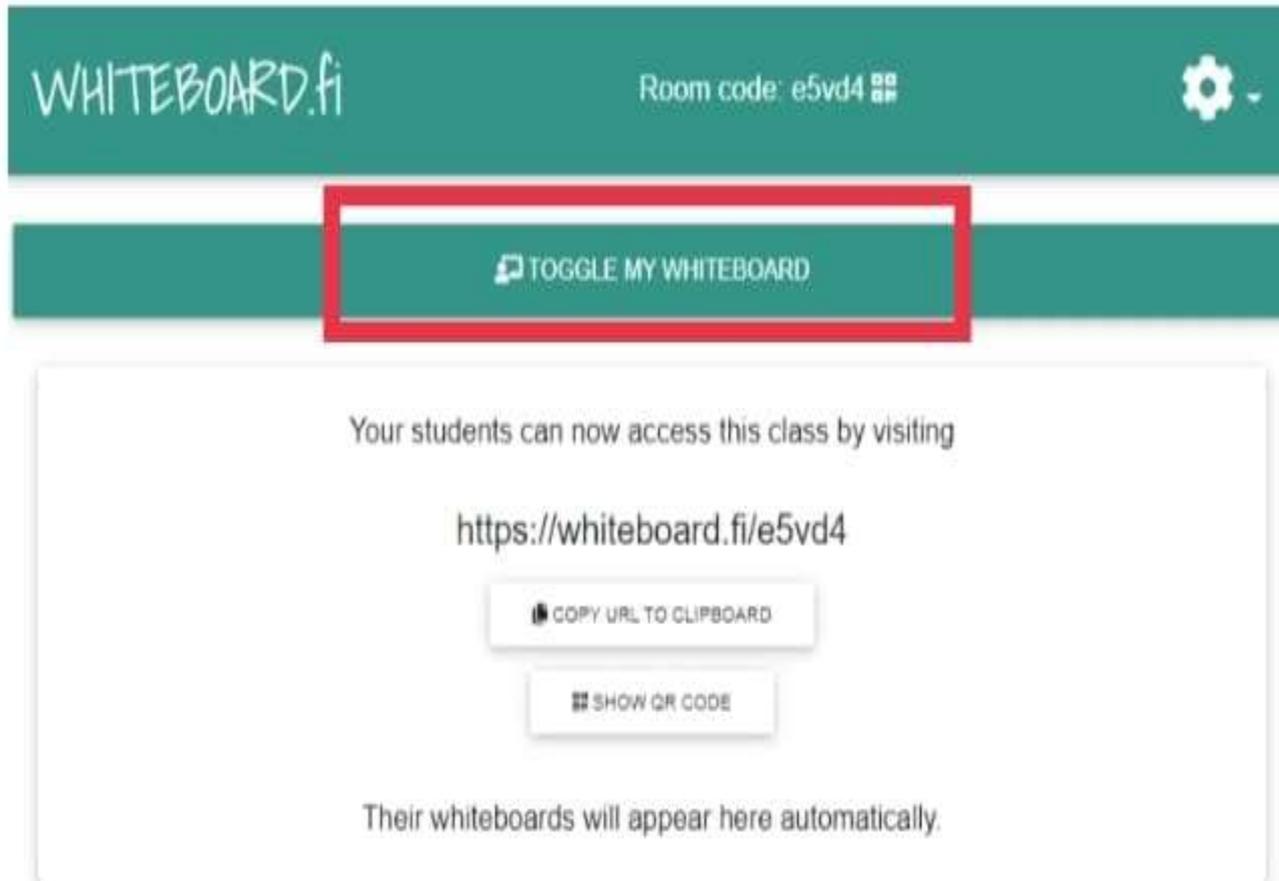

Join A Class

You can also share the URL as a QR code, which students can scan with their mobile devices. To open the QR code, either click on the  icon next to the room code, or on the "Show QR code" button.

The screenshot shows the Whiteboard.fi interface. At the top, the logo "WHITEBOARD.fi" is on the left. In the center, it says "Room code e5vd4" with a QR code icon to its right. A red box highlights the room code and the QR code icon. On the far right is a gear icon. Below this is a teal bar with a white icon and the text "TOGGLE MY WHITEBOARD". Underneath is a white box containing the text "Your students can now access this class by visiting" followed by the URL "https://whiteboard.fi/e5vd4". Below the URL are two buttons: "COPY URL TO CLIPBOARD" and "SHOW QR CODE". A red box highlights the "SHOW QR CODE" button. At the bottom of the white box, it says "Their whiteboards will appear here automatically."

Toggle My Whiteboard

Toggle My Whiteboard

Toggle My Whiteboard

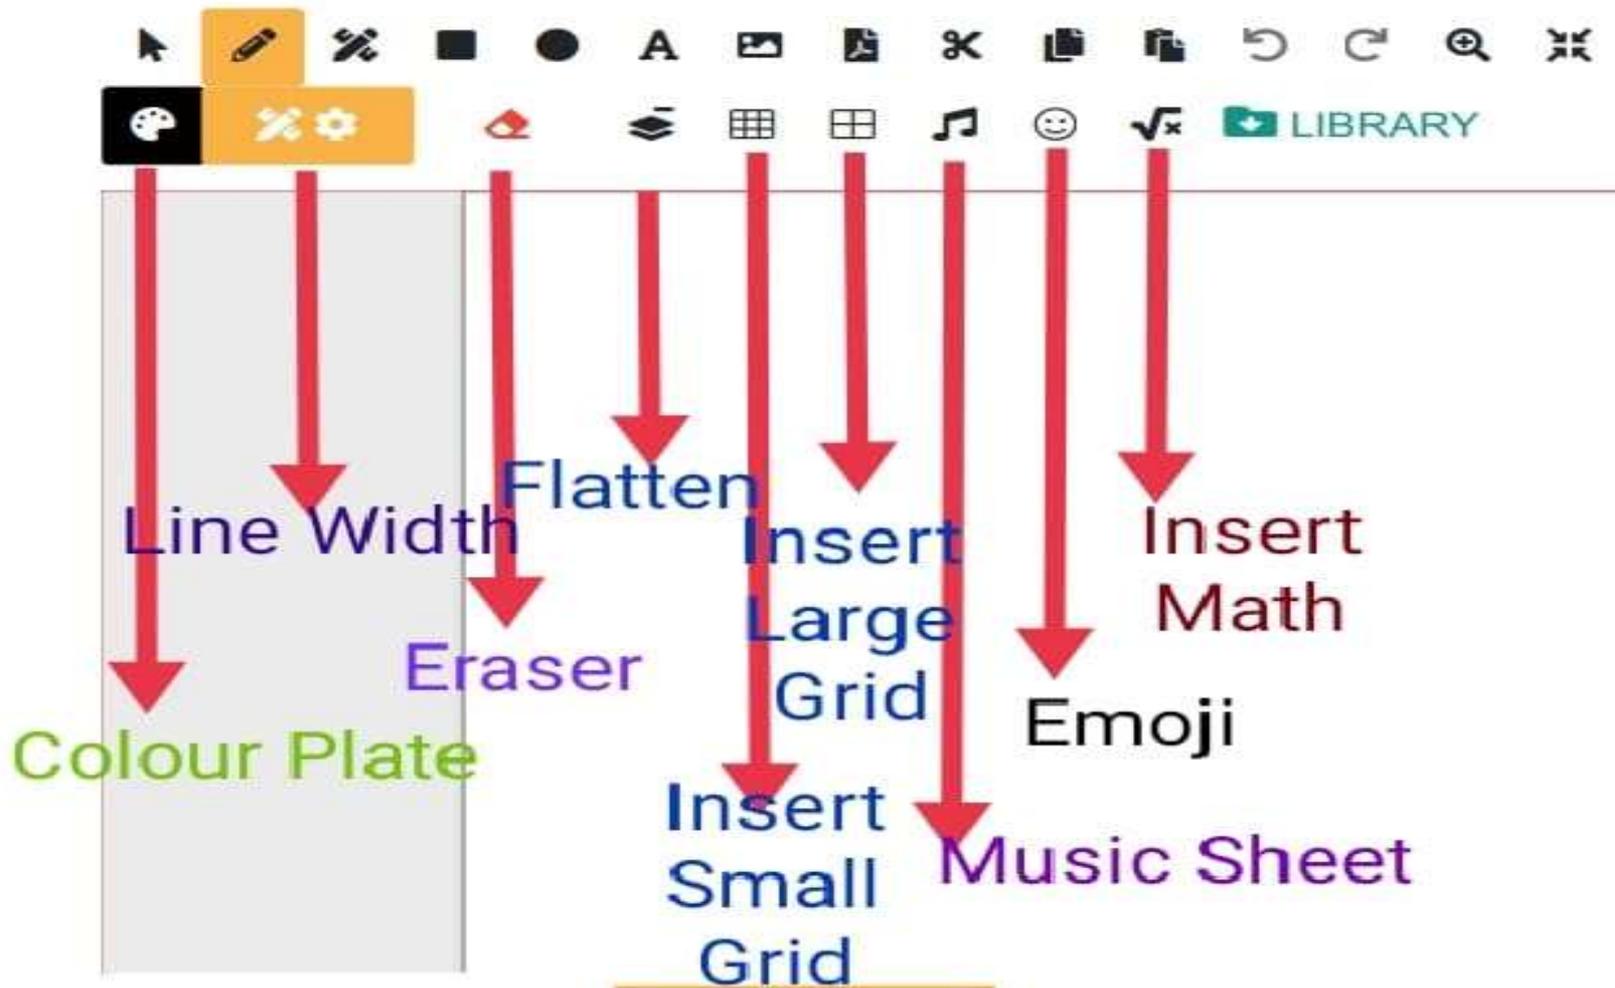

Toggle My Whiteboard

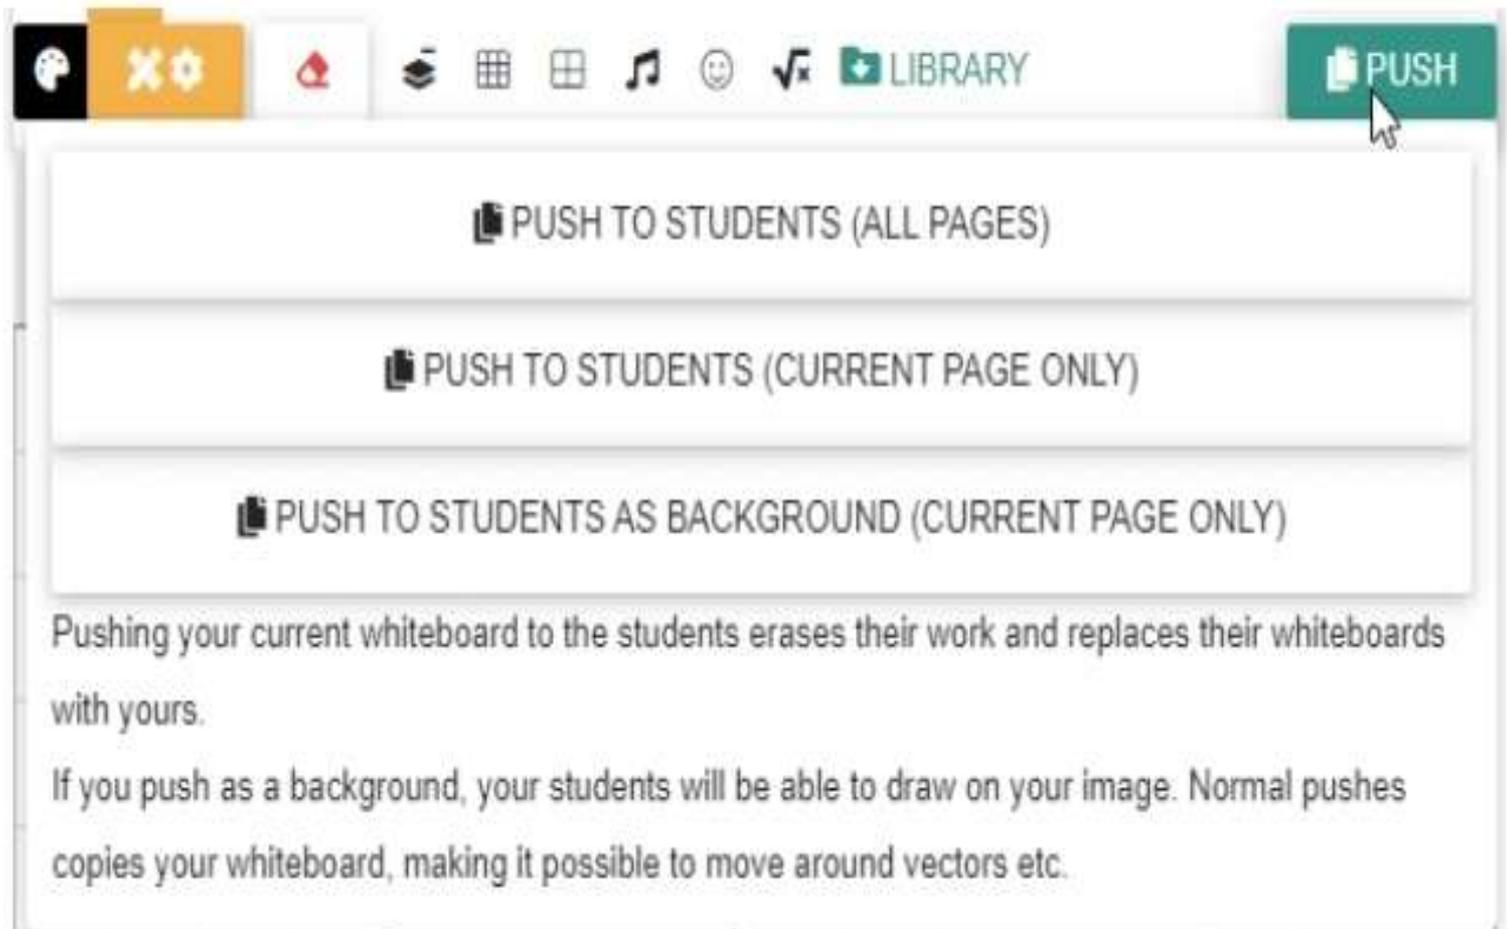

Toggle My Whiteboard

The screenshot shows a toolbar with various icons including a ghost, a settings gear, a flame, a hand, a grid, a table, a musical note, a smiley face, a square root symbol, and a 'LIBRARY' icon. A green 'PUSH' button is highlighted with a mouse cursor. A dropdown menu is open, listing three options:

- PUSH TO STUDENTS (ALL PAGES)
- PUSH TO STUDENTS (CURRENT PAGE ONLY)
- PUSH TO STUDENTS AS BACKGROUND (CURRENT PAGE ONLY)

Pushing your current whiteboard to the students erases their work and replaces their whiteboards with yours.

If you push as a background, your students will be able to draw on your image. Normal pushes copies your whiteboard, making it possible to move around vectors etc.

- Enable manual save mode for students
- Hide student names
-  Clear all student whiteboards
-  Save all whiteboards as PDF
-  Invite co-teacher
- Close room

FEATURES OF WHITEBOARD.FI

Instant Access

Setting up a new class whiteboard is lightning fast! No registration or logins needed!

Access Control

You have full control of who enters your room by using the waiting lobby. There is also an option to lock your room after your class has started, preventing new users from joining.

FEATURES OF WHITEBOARD.FI

Device Independent

Works on any device - no installation or downloads needed.

Live Overview

Ask a question, and let the whole class answer by using Whiteboard.fi. This way you will activate the whole class, and everybody gets the opportunity to answer!

FEATURES OF WHITEBOARD.FI

Versatile Tools

Insert images, backgrounds, arrows, shapes and texts! There are many different, versatile tools available

Math

Insert math symbols, expressions or equations easily using the math editor, where you can type using a graphical interface or insert LaTeX code

FEATURES OF WHITEBOARD.FI

Push Whiteboards

Easily send your current whiteboard to all students! You can upload an image, and let your students draw on it, make annotations or arrange items.

Emojis

Including over 1000 emojis that can quickly be inserted into the whiteboard.

FEATURES OF WHITEBOARD.FI

Privacy

No personal information is shared with third parties. Everything is deleted after the room is closed.

Save Whiteboards

You can easily save all your student whiteboard images as a PDF file that can be saved locally to your device.

Some ways to use Whiteboard.fi:

You can use Whiteboard.fi the same way as you use mini whiteboards in class.

Here are some ways to use whiteboard.fi:

- **Translation**
- **Picture to word:** Show a picture and students have to write the word in the target language or write a sentence about the picture.
- **Brainstorm words related to a topic:** Students can only see their boards and the teacher's board. However, you can share your screen and show all the students' answers. I would advise to click on 'hide names' to protect students' identities before sharing your screen.
- **Grammar:** Whiteboard.fi is a great tool for working on grammar (tenses, prepositions, articles, agreement, etc.).
- **Spelling**
- **Work on numbers:** Math problems and phone numbers, for example.
- **Ask the students to write a sentence using specific vocabulary or a grammar point**
- **Quiz**
- **Unjumble the sentence**
- **Listening exercise:**
 - **Gist of it:** You speak on a topic and students jot down any pieces of information they understood.
 - **Delayed dictation:** The teacher says a sentence and the students have to translate it. Ask them to wait 10 seconds before they can write anything. You can make noises during these 10 seconds so students will have to really concentrate to remember the sentence.
 - **Spot the intruder:** Share a text with the students, read it and add new elements to it. Students have to spot the added words/info and write this down on their board.
 - **Spot the error:** Share a text with the students and read it but change some of the information. Students have to spot the changes and write them down on their boards.

And many more!

THANKYOU
