Protect your privacy on YouTube

- Think carefully before you post personal information. This includes things like the town you live in, your workplace or school, and your home address.
- Protect your account data and don't share your password with others. **YouTube employees will never ask you for your password.** Don't be fooled if someone contacts you pretending to be from YouTube.
- Get permission first. As a rule of thumb, you should get permission before filming other people or posting their personal information.
- Visit the YouTube **Privacy and Safety Settings** page for a list of tools that you can use to manage your content and experience on the site.
- Always follow best practices for keeping your Google account secure.
- For stronger security, keep your accounts secured through the **2-step verification**.

Using YouTube as a Creator

Keep Your Account Safe

Use a strong password

Your online identity is important. Protect it with a strong password.

Use different passwords

Using the same password for everything online means that if one password is compromised, you lose everything.

Security checkup

Check that your security details are all up to date at google.com/myaccount

Use 2-Step Verification

- 2-Step Verification is extra-protection for your Google account.
- You can turn it on at google.com/2step

Stronger security for your Google Account

With 2-Step Verification, you'll protect your account with both your password and your phone

Signing in to your account will work a little differently

- 1 You'll enter your password**
Whenever you sign in to Google, you'll enter your password as usual.
- 2 You'll be asked for something else**
Then, a code will be sent to your phone via text, voice call, or our mobile app. Or, if you have a Security Key, you can insert it into your computer's USB port.

Video Privacy Settings

PUBLIC VIDEOS can be seen by anyone at YouTube. They can also be shared with anyone using YouTube. They're posted on your channel when you upload them and show up in search results and related video lists.

UNLISTED VIDEOS and playlists can be seen and shared by anyone with the link. They won't appear to others who visit the "Videos" tab of your channel page. They won't show up in YouTube's search results unless someone adds your unlisted video to a public playlist. You can share an unlisted video's URL with other people. The people you share the video with don't need a Google Account to see the video. Anyone with the link can also re-share it.

PRIVATE VIDEOS and playlists can only be seen by you and the people you choose. Your private videos won't appear to others who visit the "Videos" tab of your channel page. They also won't show up in YouTube's search results.

Note: Comments are not available on private videos. If you want to allow comments on a video that's not publicly available, change the privacy setting to unlisted.

Video Privacy Settings

Feature	Private	Unlisted	Public
Can share URL	No	Yes	Yes
Can be added to a channel section	No	Yes	Yes
Shows up in search, related videos, and recommendations	No	No	Yes
Posted on your channel	No	No	Yes
Shows in Subscriber feed	No	No	Yes
Can be commented on	No	Yes	Yes

A screenshot of a Google account verification screen. At the top is the Google logo. Below it, the text "Hi Akshata" is displayed. Underneath is a dropdown menu showing a profile picture and the email address "username@gmail.com". The instruction "To continue, first verify it's you" is followed by a password input field with the placeholder text "Enter your password" and a masked password ".....". To the right of the password field is an eye icon for toggling visibility. At the bottom left is a link for "Forgot password?" and at the bottom right is a blue "Next" button.

Filter Your Search

The image shows the top portion of a YouTube search page. The search bar contains the text "Maths". On the left side, there is a navigation menu with icons for Home, Trending, and Subscriptions. A red circle highlights the "FILTER" button, which is represented by a funnel icon and the word "FILTER". A red arrow points from the top right towards the filter button.

The image shows the search results page for "Maths". The search bar still contains "Maths". A red circle highlights the "FILTER" button. Below the search bar, there is a video thumbnail for "112 X 118 = ? MULTIPLICATION TRICK IN JUST 3 SECONDS" with a duration of 8:17. To the right of the thumbnail, the text "Multiplica" and "Ad Crack M" is visible. Below the video, there is a table with columns for "UPLOAD DATE", "TYPE", "DURATION", "FEATURES", and "SORT BY".

UPLOAD DATE	TYPE	DURATION	FEATURES	SORT BY
Last hour	Video	Short (< 4 minutes)	Live	Relevance
Today	Channel	Long (> 20 minutes)	4K	Upload date
This week	Playlist		HD	View count
This month	Film		Subtitles/CC	Rating
This year	Programme		Creative Commons	
			360°	
			VR180	
			3D	

Your Data in YouTube

The image shows a screenshot of a YouTube channel page for 'Akshata Udiaver'. The channel name and email 'username@gmail.com' are visible at the top right. Below the channel name is a menu with options: 'Your channel', 'Paid memberships', 'YouTube Studio', 'Switch account', 'Sign out', 'Dark theme: Off', 'Language: British English', 'Location: India', 'Settings', 'Your data in YouTube', 'Help', and 'Send feedback'. The 'Your data in YouTube' option is circled in red, with a red arrow pointing to it from the right. The main content area shows a grid of video thumbnails, including 'OBJECTS AND CLASSES IN PYTHON PYTHON TUTORIAL' (20:10), 'Writing and Executing your First Python Script' (7:15), and 'Identifier in Python (Hindi)'. At the bottom, there are more video thumbnails, including 'CONCEPT OF MODERN PERIODIC LAW' and 'TRENDS ALONG PERIODS & CLASS 10 - SCIENCE'.
